

# A Navy Veteran or Person Who Now Has Lung Cancer and Who Prior to 1982 Had Navy-Work Asbestos Exposure Should Get Compensated and The Advocate Suggests Attorney Erik Karst of Karst von Oiste to Get the Job Done

WASHINGTON , DC, USA, December 1, 2021

/EINPresswire.com/ -- The US Navy Veterans

Lung Cancer Advocate says, "If your husband or dad is a Navy Veteran or person who had significant to extreme exposure to asbestos prior to 1982 in the navy or at work and he has recently been diagnosed with lung cancer in any state in the USA please call attorney Erik Karst of the law firm of Karst von Oiste anytime at 800-714-0303 about financial compensation. Compensation for a person like this might exceed \$100,000 and it does not matter if the person smoked cigarettes.

If your loved one is a Navy Veteran or person who had exposure to asbestos prior to 1982 in the navy or at work and he has lung cancer call attorney Erik Karst of Karst von Oiste at 800-714-0303."

*US Navy Veterans Lung Cancer Advocate*

"Most people who develop lung cancer after being exposed to asbestos in the navy or at work decades earlier do not realize the \$30 billion dollar-asbestos trust funds were set up for them too. If the person- we have described sounds like your husband or dad and his lung cancer diagnosis occurred no longer than 12 months ago-please

call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303 for a discussion of the compensation process along with what might be involved. As mentioned a compensation settlement for a person who had substantial exposure to asbestos in the navy or at work before 1982 might exceed \$100,000 depending on the specifics of the asbestos exposure as attorney Erik Karst is always happy to discuss." Important Note from the US Navy Veterans Lung Cancer Advocate: "The more specific the information about their asbestos exposure the better the prospects for the best compensation for a Navy Veteran or person who now has lung cancer. Making a list of the various types of

asbestos exposure may dramatically increase the prospects for a top compensation result."

<https://USNavyLungCancer.Com>

High-risk workplaces for asbestos exposure include the US Navy, shipyards, power plants, public utilities, manufacturing factories, chemical plants, oil refineries, mines, smelters, pulp and paper mills, aerospace manufacturing facilities, offshore oil rigs, demolition construction work sites, railroads, automotive manufacturing facilities, or auto brake shops. With lung cancer caused by asbestos exposure the lung cancer may not show up until decades after the exposure.

<https://USNavyLungCancer.Com>

According to the American Cancer Society for nonsmokers who have been exposed to asbestos in their workplace the risk of lung cancer is five times that of unexposed workers.

<https://www.cdc.gov/cancer/lung/statistics/index.htm>.

States with the highest incidence of lung cancer include Kentucky, West Virginia, Maine, Tennessee, Mississippi, Ohio, Indiana, Louisiana, Arkansas, Missouri, North Carolina, Rhode Island, Alabama, and Delaware.

However, a US Navy Veteran or person with asbestos exposure lung cancer could live in any state including New York, Florida, California, Massachusetts, Pennsylvania, New Jersey, Maryland, Illinois, Wisconsin, Minnesota, Oklahoma, Texas, Iowa, Georgia, Kansas, Nebraska, North Dakota, Wyoming, Colorado, New Mexico, Utah, Nevada, Arizona, Idaho, Washington, Oregon or Alaska.
