PORTLAND, OR, UNITED STATES, October 26, 2021 /EINPresswire.com/ -- [Lazarus Naturals](https://www.lazarusnaturals.com), a Pacific Northwest-based CBD company with a mission of effective and accessible CBD for all, today announced the addition of CBD Dark Chocolate to its product line. New CBD Chocolate features full-spectrum CBD

“We created the new CBD Dark Chocolate in partnership with Ranger Chocolate, another local business committed to ethical sourcing. We’re excited to combine the highest quality artisan chocolate with our full spectrum CBD,” said Sequoia Price-Lazarus, CEO and founder of Lazarus Naturals. “As the edibles category continues to grow across the industry, our customers continually ask us to expand our existing edibles product line — which currently includes CBD Fruit Tarts.”

Lazarus Naturals CBD Dark Chocolate is available in a 58-gram bar (MSRP \$15) made from organic, vegan, and non-GMO ingredients — including organic cacao, organic sugar,

cacao butter, sea salt, vanilla and full spectrum hemp extract. “We want to make products we’re

proud of. All our products are made to work first and foremost, and always priced for all of us. Our new chocolate is no different. It is a delicious and familiar way for new customers to engage with our brand and get the high potency CBD they want," said Price-Lazarus. "

"The new CBD Chocolate Bar is crafted from our premium 'Makers Blend' chocolate — a combination of cocoa beans ethically sourced from multiple regions — to achieve a balanced flavor and complement the earthiness of the hemp," said George Domurot, founder and CEO of Ranger Chocolate Co. Cocoa beans offer essential vitamins and minerals to help promote a healthy lifestyle, making it a perfect addition to CBD. In addition, cocoa has many flavanols and polyphenols providing antioxidant and anti-inflammatory properties, which are also known to be a benefit of CBD.

Products are available to purchase on LazarusNaturals.com.

Like all Lazarus Naturals offerings, the new CBD Chocolate Bars are third-party tested for potency, pesticides and heavy metals. All test results are available at LazarusNaturals.com by visiting the "Test Results" tab on an individual product page and looking for the batch number listed on the packaging.
