Management of Value (MoV)

Management of Value (MoV®) is helped by principles, processes, and techniques that will help organization optimize the benefits of their portfolios, programmes, and projects. Management of Value (MoV) explains how to use resources as efficiently and effectively as possible.

If you believe (effective)  
training is expensive, try  
ignorance!"

*Peter Drucker*

Management of Portfolios (MoP®) helps senior executives and decision-makers to understand how portfolio

management can maximize return on investment, and start and sustain transformation. Management of Portfolios (MoP) comprises of principles, techniques, and practices which assist organizations in the successful adoption of portfolio management.

Management of Risk (M\_o\_R®) has been primarily designed to help organizations establish an effective framework for risk management which will enable them to make informed decisions about the risks that affect their strategic, portfolio, programme, project, product, and operational objectives.

Management of Risk (M\_o\_R®) provides practical guidance for managing risk, showing how risk links to opportunity and the realization of benefits.

M\_o\_R® 4 is the latest edition of Management of Risk – a must-have certification for roles where managing risk is inherent, including portfolio, programme, project, business change and risk management professionals. Management of Risk (M\_o\_R®) 4 has a specific relevance for individuals working in product focussed environments / roles, offering a compelling integrated solution for the unique challenges faced by modern, digital-first organizations. has been developed for candidates and practitioners who are interested in understanding how risk links to opportunity and the delivery of benefits, and in communicating or cascading this to stakeholders.
