*Rising Preference for Convenience Food Products to Escalate Precooked Corn Flour Market Growth During 2021-2028*

NEW YORK, UNITED STATES, March 24, 2022 /EINPresswire.com/ -- The global [precooked corn flour market](#) is accounted to US\$ 2,461.2 Mn in 2018 and is expected to grow at a CAGR of 4.4% during the forecast period 2019 - 2027, to account to US\$ 3,615.2 Mn by 2027. The report include key understanding on the driving factors of this growth and also highlights the prominent players in the market and their developments.

Excess gluten consumption can lead to serious health issues such as sensitivity, wheat allergy, and celiac disease. According to the World Gastroenterology Organization (WGO), celiac disease affects people of all age groups. Moreover, as per the Institute for Functional Medicine, incidences of celiac disease are increasing at 7.5% per year, with incidences highest among females and children. Increased demand for gluten-free food products is due to growing health-conscious consumers. These factors are driving the demand for gluten-free food products.

Country scope- US, UK, Canada, Germany, France, Italy, Australia, Russia, China, Japan, South Korea, Saudi Arabia, Brazil, Argentina

Report coverage- Revenue forecast, company ranking, competitive landscape, growth factors, and trends

The growth of the precooked corn flour market in this region is primarily attributed to rapid growth in the food and beverage industry in the US, Canada, and Mexico. Moreover, rising demand for convenience and ready to eat healthy food is projected to propel the demand for precooked corn flour in the North America region. The region also has the presence of major precooked corn flour manufacturers such as Archer Daniels Midland Company, Cargill, Incorporated, Limagrain (Limagrain Ingredients), Goya Foods, Inc., Bob's Red Mill Natural Foods, Bunge Limited, Gruma, S.A.B. de C.V., and among others.

In 2018, the yellow corn flour segment accounted for the largest market share in the global precooked corn flour market. Yellow corn flour is easily available in the market and is widely used for producing products such as bakery and confectionery, extruded snacks, and RTC food. Furthermore, tortilla chips, nachos, and taco shells made from yellow corn flour are very popular among the consumers. This further boost the demand for precooked corn flour market globally. Moreover, the white corn flour segment is projected to grow at a faster pace over the forecast period due to rising awareness about the health benefits offered by white corn flour among health-conscious consumers.

#### Impact of COVID-19 Pandemic on Precooked Corn Flour Market

The COVID-19 outbreak was first reported in Wuhan (China) in December 2019, and since then, it has spread at a fast pace across the globe. As of June 2020, US, Brazil, India, Russia, Spain and the UK are a few of the worst-affected countries in terms confirmed cases and reported deaths. The COVID-19 has been affecting economies and industries in various countries due to lockdowns, travel bans, and business shutdowns. Food and beverages is one the world's major industries suffering serious disruptions such as supply chain breaks, technology events cancellations, and office shutdowns as a result of this outbreak.
