

Strategies For Global Engineered Stone Market Players In 2022-2026 Market Forecast Period

The Business Research Company's Engineered Stone Global Market Report 2022 – Market Size, Trends, And Global Forecast 2022-2026

LONDON, GREATER LONDON, UK, May 11, 2022 /EINPresswire.com/ --

According to '[Engineered Stone Global Market Report 2022](#) – Market Size, Trends, And Global Forecast 2022-2026'

published by The Business Research Company, the engineered stone market size is expected to grow from \$20.20 billion in 2021 to \$21.67 billion in 2022 at a compound annual growth rate (CAGR) of 7.30%. The growth in the market is mainly due to the companies' rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The global engineered stones market size is expected to reach \$29.92 billion in 2026 at a CAGR of 8.40%. The high growth in the construction industry is expected to propel the global engineered stone market growth.

The engineered stone market consists of sales of engineered stone by entities (organizations, sole traders, and partnerships) that refer to a composite slab of stone that is prepared from 90% crushed quartz and that is bound together utilizing a polymer resin, and the rest of 10% is prepared with extra materials such as metals, mirrors, or colored glass that are mixed in for aesthetic reasons. The engineered stone market material is utilized anywhere that slab stones such as marble or granite are used, but a majority of customers and industries utilize engineered stone for their kitchen and bathroom countertops.

Global Engineered Stone Market Trends

The key players in the engineered stone market are focusing on the manufacturing and development of engineered stone from recycled materials to meet their efforts towards
