The medical device outsourcing market consists of sales of medical device outsourcing by entities (organizations, sole traders, and partnerships) that refers to a type of contract between the manufacturer and the third party performing the business such as prototype, product design, supply chain management, and medical equipment or part of a comprehensive product manufacturing.

## [Global Medical Device Outsourcing Market Trends](#)

Strategic partnerships and collaborations have emerged as a key trend gaining popularity in the market. According to the medical device outsourcing market overview, major companies are focusing on partnerships and collaborations to lead the market. For instance, in December 2021, Labcorp, a US-based laboratory testing company acquired Toxikon Corporation for an undisclosed amount. This acquisition would extend Labcorp's portfolio of full-service drug development and medical device solutions from discovery to market approval. Toxikon Corporation is a US-based contract manufacturing company that provides outsourcing services

for medical devices. Furthermore, in February 2020, Integer Holdings, a US-based advanced medical device outsourcing company acquired Inomec for an undisclosed amount. This acquisition of Inomec will allow Integer to establish a research and development and sales center in Israel, in addition to optimizing its catheter design, clinical, and pilot manufacturing capabilities. Inomec is an Israel-based medical device outsourcing company.
