

BEVEG VEGAN CERTIFICATION SPEAKS AT THE GLOBAL RETAILER AND MANUFACTURING ALLIANCE SUMMIT

The Global Retailer and Manufacturing Alliance (GRMA) Summit highlights BeVeg -- the world's only accredited Vegan certification and quality assurance standard.

CHICAGO, ILLINOIS, UNITED STATES, June 23, 2022 /EINPresswire.com/ -- BeVeg [Vegan Certification](#) Founder and CEO, Carissa Kranz, esq., is a featured speaker at the Global Retailer and Manufacturing Alliance (GRMA) Summit this week. BeVeg is the world's first and only accredited Vegan certification standard by ISO, and is considered the global benchmark for audited, credible and official [Vegan product certification](#) claims.

The graphic features the BeVeg logo (100% VEGAN CERTIFIED) and a 'Vegan Certification Bundle offerings' section. It lists various accreditation logos including USDA Organic, Non-GMO Project Verified, NSF, HACCP, and others. A handwritten note says 'Standard pre-requisites'. Text below states 'Audits in about 200 countries. Worldwide recognition'. On the right, there is a 'GRMA' logo and a contact box with 'INTERESTED?' and contact information: 'www.beveg.com' and 'hello@beveg.com'. At the bottom right is the 'GFSI' logo. A small text block at the bottom left explains: 'BeVeg ISO accredited Vegan certification is validation that a product is Vegan, free from animal ingredients and cruelty-free. Internationally recognized this program delivers consumer confidence and helps brands to independently validate their Vegan credentials.'

The BeVeg Vegan trademark is a global trademark that enables brands to independently validate Vegan product claims with confidence.

GRMA creates harmonized quality and safety standards for the “health and wellness” category, including dietary supplements, cosmetics and OTC drugs. GRMA and BeVeg exist to advance global quality and safety standards, and together as a bundle, can offer companies and brands the only worldwide accredited Vegan certification program on the planet. The GRMA audit is a pre-requisite for the BeVeg audit much like GFSI or GMP is for food or textile products. BeVeg and the GRMA bundled audit is a win-win solution that satisfies both regulatory and retail quality requirements for a meaningful Vegan certification claim.

The BeVeg [Vegan trademark](#) is a global trademark that enables brands to independently validate Vegan product claims with confidence. This is important for the plant-based consumer and for the producer wishing to access new capital markets. BeVeg is ISO 17065 accredited for Vegan product/service certification, and is the only Vegan certification claim worldwide to have globally accredited standards that are Vegan in scope behind it. The BeVeg / GRMA bundled audit offering promotes safety, quality and trust throughout supply chains satisfying retail and consumer expectations. NSF International is accredited and authorized to manage the audits for BeVeg, GRMA, and many other high standard certifications that can be bundled into a single

BeVeg and the GRMA bundled audit is a win-win solution that satisfies both regulatory and retail quality requirements for a meaningful Vegan certification claim that speaks to quality assurance."
