The expanding food industry and the growing consumption of fast-food items, particularly among the Millennial population, are primarily driving the cheese market. Moreover, numerous key manufacturers are introducing a wide range of novel product variants, including processed cream cheese in jars, cheese slices, cheddar cheese in tubs and cans, etc., to expand their customer base, which is further augmenting the market growth. In addition to this, the rising sales of cheese via online retail channels, which offer a hassle-free shopping experience, accessible payment gateways, and several discounts to customers, are also acting as significant growth-inducing factors. Furthermore, the launch of organic and clean-labeled product variants is anticipated to bolster the cheese market over the forecasted period.
