

Nautilus Mineral Waters of America Is Launching a Line of "Red Cross/Red Crescent" Bottled Waters

LA JOLLA, CA, USA, July 22, 2022 /EINPresswire.com/ -- Richard H. Davis, President of Beverage Marketing USA and Nautilus Mineral Waters of America, states that his company intends to produce and market a Red Cross/Red Crescent line of bottled waters. Nautilus is in talks with IFRC to launch a retail version of Red Cross/Red Crescent. Nautilus will donate 10 percent of the retail sales price to the Red Cross Relief and Development Fund.

"Water is an essential element for human survival, and securing fresh water supplies for disaster relief is vital to populations in areas experiencing poor water quality," said Davis. "In addition to drinking Red Cross/Red Crescent brand water, you can also donate ten bucks immediately to the American Red Cross Disaster Relief fund, via your cell phone by texting REDCROSS to 90999, charges of \$10 will appear on your wireless bill, or be deducted from your prepaid balance," said Davis.

For a limited time, Nautilus is offering specially wrapped 24-packs of Red Cross/Red Crescent brand spring water and purified water to benefit the Red Cross Relief and Development Fund. The European spring water version will be filled from the same deep underground spring in an environmentally pristine area of Norway, the spring is named for Sankt Olav, the Viking King who drank from the Spring in the Year 1028, Norway's first inhabitants settled around Stavanger 10,000 years ago. It was also here the Norwegian Kingdom was consolidated into one realm in the Hafsfjord when the Vikings met in the battle in 872 AD.
