The plumbing fixtures and fittings market consist of sales of plumbing fixtures and fittings products by entities (organizations, sole traders, and partnerships) that are essential components of plumbing systems installed in buildings for the adequate distribution of water for use in various activities such as drinking and washing, and for the removal of waterborne waste from the building. Plumbing fittings are products that can be removed from one place to another and can be installed simply, whereas plumbing fixtures cannot be moved once they are installed and can be damaged with the house. Only those products come under plumbing fixtures.

## [Global Plumbing Fixtures and Fittings Market Trends](#)

Technological advancement is shaping the market. Plumbing fixtures and fittings market trends include major companies advancing towards adopting new technologies and research and developments in the plumbing fixtures and fittings market. For instance, in August 2021, Prince Pipes and Fittings, an Indian PVC pipe manufacturer and multi-polymer processor, launches a prince one for CPVC piping systems with Corzan CPVC technology in association with the Lubrizol
