lifestyle. The abundance of content, including teaching materials and classes, and the live-access nature of the classes, which allows students to ask questions immediately to their teachers, are appealing, and the ease with which students can continue their studies leads to a steady improvement in their Japanese language skills.

In April 2022, many students from all over the world enrolled in the first term of the program to study Japanese. Although the first batch of students is studying in the beginner's class "i-class" in response to requests from prospective students around the world for classes at various levels, it has been decided that in October, in addition to the introductory and beginner's level "i-class," the beginner's level "ro-class" and intermediate class "ha-class" will be offered as well. In addition, in response to numerous requests from Japanese language learners living in different time zones around the world, we have decided to significantly increase the number of class hours starting in the fall semester. Students will be able to attend classes at times that are convenient for them, no matter where they live in the world.

At the 3rd Information Session, we will explain about AOJ Language School, its curriculum, school schedule, course outline, admission information and [enrollment campaign](#). Although registration for October enrollment has already started, this is a good opportunity to ask questions directly to school officials about actual classes and support details.

With the application deadline for the second JLPT (Japanese Language Proficiency Test) of 2022 approaching on September 15 (Japan time), this is an ideal opportunity for those who wish to maintain motivation while studying in an environment where they can ask questions to their teachers from the comfort of their home. Please refer to our website for detailed information and application. You can also request information materials or ask questions about the school through the website.
