

Global Textile Chemicals Market Growth Trajectory

The Global Textile Chemicals Market Report by The Business Research Company covers market size, drivers, restraints, key players, and the impact of COVID-19.

LONDON, GREATER LONDON, UK,
September 21, 2022 /

EINPresswire.com/ -- As per The
Business Research Company's "Textile

Chemicals Global Market Report 2022", the textile chemicals market is expected to grow from \$23.45 billion in 2021 to \$24.44 billion in 2022 at a compound annual growth rate (CAGR) of 4.23%. The growth in the market is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The global textile chemicals market size is expected to reach \$29.33 billion in 2026 at a CAGR of 4.67%. The increasing demand for textiles is expected to boost the demand for textile chemicals market during the forecast period.

Key Trends In The Textile Chemicals Market

Technological development is a key trend gaining popularity in the textile chemicals market. Companies in the textile chemistry market are focusing on developing textiles with the latest technologies like non-fluorinated durable water repellence, and eco-friendly digital printing.

Overview Of The Textile Chemicals Market

The textile chemicals market consists of sales of the textile chemicals by entities (organizations, sole traders, and partnerships) that refer to the application of basic chemistry to understand textiles and textile materials. Textile chemicals such as biocides, flame-retardants, water repellents, bleaches, emulsified oils, and others are used for the functional and aesthetic modification of textiles into useful and desirable items, which are employed by manufacturers
