Trending Toilet Roll Market Trend

Companies in the toilet roll market are increasingly using Through Air Drying (TAD) Technology, a high standard technology to produce paper. Toilet paper produced using TAD technology makes it suitable for rolled products and has high absorbency with improved properties of bulk. Ultra toilet paper is produced using TAD technology in which during drying the paper air is blown into the fibres. US is extensively using TAD technology in the production of tissue papers. For instance, Valmet is using eTAD Technology which produces soft, improved bulk and absorbency

products with lower energy consumption and a sustainable process. This will give access to premium and ultra-premium tissue markets to the tissue manufacturers.
