Development of the travel & tourism industry plays a significant role in the growth of the Asia-Pacific MICE industry."

Shankar Bhandalkar

The Asia-Pacific [MICE industry](#) generated revenue of \$229.0 billion in 2017, and is expected to grow at a CAGR of 8.6% to reach \$441.1 billion by 2025.

The term MICE in the context of travel is an acronym for meetings, incentives, conferences, and exhibitions. The MICE market refers to a specialized niche of group tourism dedicated to planning, booking, and facilitating

conferences, seminars, and other events, and it is the highest revenue contributor to the travel industry. The MICE industry provides easy and convenient methods for organizing events and helps choose the right destination, which forms the basis of a successful event.

MICE represents a sector of tourism that includes business events and activities such as client

meetings, brand & product promotions, business expansion, employee training, and incentives. Globalization of businesses, rapid increase in SMEs, and the surge in presence of corporate industries have caused massive increase in aforementioned business activities; thus, driving the growth of the Asia-Pacific MICE industry. Other significant factors that promote the growth of the market are rise in business travel coupled with change in lifestyle of business travelers to seek leisure trips, rapid urbanization, and increase in disposable incomes.

However, high cost associated with MICE events and uncertain geopolitical conditions hamper the market growth. Factors such as investments in infrastructural development and technological advancements, are expected to provide lucrative opportunities for the growth of the market. The Asia-Pacific MICE industry is segmented on the basis of event type and country.
