- The global supply chain for anesthetic medications was slowed down during the lockdown, which impacted the global local anesthesia drugs market negatively.
- Also, the cancellation or postponement of non-essential surgical procedures had a sheer negative influence on anesthetic drug demand, which again hampered the market growth. However, the market has now recovered.

Increase in number of working women across the globe, rise in healthcare expenditure by the government, favorable reimbursement scenario, and technological developments in electric breast pumps drive the demand for the global breast pumps market. However, risk of

contamination with foreign substances and high pricing of breast pumps impede the market growth. On the other hand, surge in various developmental strategies among the key players, high market potential in untapped developing countries, and development of pipeline products are anticipated to pave the way for multiple opportunities in the industry.

The global local anesthesia drugs market is analyzed across drugs type, applications, and regions. The report takes in an exhaustive analysis of the segments and their sub-segments with the help of tabular and graphical representation. Investors and market players can benefit from the breakdown and devise stratagems based on the highest revenue-generating and fastest-growing segments stated in the report.

By drugs type, the lidocaine segment held more than one-fifth of the global local anesthesia drugs market revenue in 2021 and is projected to maintain the lion's share throughout the forecast period. The bupivacaine segment, however, would cite the fastest CAGR of 7.6% from 2022 to 2031. The other segments discussed through the report include ropivacaine, chlorprocaine, prilocaine, and benzocaine.

By application, the injectable segment garnered the highest share in 2021, accounting for more than half of the global-local anesthesia market revenue. The Surface Anesthetic segment, on the other hand, would display the fastest CAGR of 6.7% from 2022 to 2031.

By region, North America held the major share in 2021, garnering more than two-fifths of the global-local anesthesia market revenue. Asia-Pacific, simultaneously, would showcase the fastest CAGR of 9.1% from 2022 to 2031. The other provinces studied through the report include Europe and LAMEA.
