Tierra Encantada has been at the forefront of Spanish immersion early education since its establishment in 2013. The award-winning company has consistently offered an elevated childcare experience for children aged 6 weeks through 6 years, with a strong focus on holistic child development. Tierra Encantada's STEAM and SEL curriculum is taught through the language of Spanish. This

allows children to learn a second language naturally, much like their first language, through conversation and context.

"The research is clear: children who learn a second language in their earliest years have social and cognitive advantages over their monolingual peers. Our families recognize that we are providing a safe, nurturing place for their children to become bilingual while exceeding early learning benchmarks," said Kristen Denzer, Founder and CEO of Tierra Encantada.

At Tierra Encantada, the learning experience is more than just education. Children's days are filled with warmth, nutritious meals, and meaningful connections. The culinary program at Tierra Encantada is exceptional, featuring recipes from around the world that are prepared from scratch using organic ingredients by an in-house chef. This commitment to quality nutrition ensures that children receive the best possible start in life.

Tierra Encantada is a leader in Spanish immersion childcare, this is a testament to its unwavering dedication to excellence in early childhood education. The opening of the [Camp Bowie Village location](#) is just the beginning of Tierra Encantada's expansion plans in Texas. With a growing

demand for Spanish immersion education, the company is set to open multiple locations across Texas over the next five years, offering families even greater access to high-quality childcare and preschool.
