[LiTime 12V 100Ah Group 24 LiFePO4 Lithium Battery \\$279.99 \(was \\$299.99\)](#)

The LiTime Group 24 battery size adheres to the industry-standard BCI and is engineered to seamlessly integrate into a wide range of vehicles and applications. Its universal compatibility allows for effortless installation in any vehicle that is equipped with a Group 24 battery box.

Weighing only 21 lbs, this battery is compact yet powerful, with an energy storage capacity of 1280Wh. With this capacity, you can rely on a sufficient power supply for your needs.

[LiTime 48V 60Ah Golf Cart Lithium Battery \\$899.99 \(was \\$999.99\)](#)

The LiTime 48V 60Ah Golf Cart LiFePO4 lithium Battery - a great solution for golfers looking to ditch the cumbersome lead-acid batteries. This battery is specifically designed to shed over 200 lbs from the cart, resulting in enhanced maneuverability and impressive speed on the golf course. Installing the battery is a breeze with its seamless integration into the cart, eliminating the need for complex wiring. With an impressive lifespan of over 4000 deep cycles, this battery guarantees long-lasting performance, making it the great choice for avid golfers who frequently rely on their carts.

Battery with Low-Temperature Protection---12V 100Ah TM &12V 230Ah

[LiTime 12V 100Ah TM LiFePO4 Battery - \\$269.99 \(was \\$339.99\)](#)

Special designed for trolling motors and highly recommended by renowned YouTuber Will Prowse, a trusted authority in the industry, this battery is specifically designed to excel in colder climates, making it an exceptional choice for those facing extreme weather conditions. It allows for charging above 32°F (0°C) and safeguards against any damage when temperatures drop below that threshold. Furthermore, it automatically recovers when temperatures rise above 41°F (5°C), ensuring optimal functionality.

Moreover, this battery is engineered to withstand the harshest of environments, making it reliable for marine applications. With resistance to moisture, dust, and salt spray, you can trust the LiTime battery to deliver an unparalleled level of power and dependability, be it in open waters or navigating through rough seas.

□LiTime 12V 230Ah LiFePO4 Battery - \$619.99 (was \$689.99) □

This battery also has a low-temperature protection feature. With a robust 200A built-in BMS (Battery Management System), the LiTime 12V 230Ah Plus ensures efficient and safe operation, protecting against overcharging, over-discharging, over-current, short circuits, high-temperature and low temperature.

What's more, with a capacity of 2944Wh, it can meet the demands of various applications.

For those who need trustworthy power backup for home, a dependable energy source for camping trips, or a robust battery for marine adventures, the 12V 230Ah is up to the task.

□These Deals Won't Last Long--Available Until November 30th□

With the approaching winter season, now is an opportune time to secure reliable power for the future with LiTime's batteries and accessories. With their comprehensive solar energy solutions, individuals can ensure a continuous power supply for their homes, campers, cabins, or any other residence, even during grid outages. Furthermore, these products also make excellent gifts for friends and family.
