

Matexcel Released a Wide Range of Natural Food Additives for Research Use

SHIRLEY, NY, UNITED STATES, November 28, 2023 /EINPresswire.com/ -- Matexcel, a renowned biological material company with a product range that encompasses hydroxyapatite, chitosan, hyaluronic acid, bioglass, metal powders, and biodegradable and tissue engineering materials, recently released a wide range of [natural food additives](#) catered to every need.

Natural food additives are substances that are added to food to improve its taste, color, texture, or shelf life. They can be naturally derived or synthetically produced. Natural food additives are extracted from natural sources, such as plants, fruits, and vegetables. They are generally considered to be safe for consumption.

Matexcel's natural food additives are made from high-quality ingredients and are backed by a team of experienced scientists. The company is committed to providing its customers with the safest and most effective natural food additives available. Main categories of natural food additives provided by Matexcel include:
