President*

Committee. She has been very active in educating the next generation of physicians. Dr. Gould has been involved in the educational mission of at least seven societies, including WHS. Her exceptional work in the field of wound healing has advanced wound care and research with over 80 peer-reviewed manuscripts and contributions to an additional five book chapters in the field of wound healing. “Lisa has worked tirelessly to improve patient care and her research efforts have made a significant impact in the field – WHS appreciates her contributions and is delighted to

acknowledge her accomplishments with this award”, said Traci Wilgus, PhD, current WHS President.

Founded in 1989, the Wound Healing Society (WHS) is the premier scientific organization focused on wound healing. A nonprofit organization composed of clinical and basic scientists and wound care specialists, the mission of the WHS is to improve wound healing outcomes through science,

professional education, and communication. The WHS provides a forum for interaction among scientists, clinicians, and other wound care practitioners, industrial representatives, and government agencies. The WHS is open to individuals who are interested in the field of wound healing and presently comprises more than 2000 members in the United States and other countries.
