Poly-coated kraft paper refers to pure kraft paper with a polyethylene coating. As with other paper production methods, Kraft paper is made by chemically converting wood into wood pulp. It is typically used in wrapping applications that require a moisture or grease barrier. It can also be used as a moisture barrier for pallet liners and tie sheets. Poly-coated kraft paper protects products from water, oil, dust, and grease. It is ideal for wrapping items with grease, oil, or other liquid barriers.
