Growth driver of the veterinary eye care market

The increasing pet population is expected to propel the growth of the veterinary eye care market going forward. Pet population refers to the total number of domestic animals that are kept by humans for companionship, emotional support, recreation, or other non-utilitarian purposes. The rise in the pet population is due to societal trends favoring pet ownership, advancements in veterinary medicine, and increased awareness of the importance of pet healthcare. Veterinary eye care is crucial for diagnosing and treating ocular conditions in pets, ensuring overall visual

health and quality of life.
