CoreLogic Announces Acquisition of Prime Ecosystem, Expanding Contractor Solutions Globally

LONDON, UNITED KINGDOM, January 7, 2025 /EINPresswire.com/ -- CoreLogic®, a global leader in property information, analytics, and data-enabled solutions, today announces its acquisition of Prime Ecosystem, a prominent technology firm specialising in construction, restoration, and maintenance management platforms in Australia.

> "This strategic acquisition emphasises our commitment to delivering high-quality, innovative solutions that redefine industry standards."
>
> *Michael Porter, SVP International Insurance Solutions at CoreLogic*

This strategic acquisition aims to extend Prime Ecosystem's proven contractor technology from Australia to other international markets, starting with the United Kingdom, and further support Prime's rapid growth in its home markets.

CoreLogic's extensive history in restoration services and its deep experience in the property insurance market, combined with Prime Ecosystem's tailored job management system, create a powerful solution focused on helping contractors work more efficiently, grow intelligently, and adapt swiftly to change.

Launching under the name CoreLogic® Contractor Workspace™, this CoreLogic solution is available to contractors in the United Kingdom in addition to Prime Ecosystem's home markets of Australia and New Zealand. It enables contractors to manage the entire job lifecycle with custom workflows, trade management, and asset tracking.

Additionally, it streamlines communication and collaboration with customers, clients, and on-site teams. The intuitive system provides a comprehensive financial and performance overview, empowering business owners and their team to make better decisions and drive their business forward.

Michael Porter, Senior Vice President of International Insurance Solutions at CoreLogic, stated, "With the acquisition of Prime Ecosystem, we are enhancing our international offerings by expanding into the dynamic contractor space. This marks a crucial step in strengthening our capabilities and creating a complete end-to-end value chain. By integrating Prime's contractor

software into our portfolio, we are streamlining processes and providing a transformative shift in how contractors manage their jobs through a centralised platform. This strategic acquisition emphasises our commitment to delivering high-quality, innovative solutions that redefine industry standards."

Paul Brandis, Managing Director and Co-founder of Prime Ecosystem remarked, "Our acquisition by CoreLogic represents a significant convergence of cutting-edge technology and industry expertise. Prime Ecosystem, Australia's leading contractor solution, is more than just a platform; it is a catalyst for operational excellence. With features such as document storage, compliance tracking, and real-time communication, our solution provides contractors with the tools they need to succeed in the construction, restoration, and insurance sectors. We take pride in contributing our technical expertise to this acquisition, ensuring a seamless integration that will enhance the efficiency and effectiveness of contractor management for CoreLogic's clients."

About CoreLogic
CoreLogic is a leading provider of property insights and innovative solutions, working to transform the property industry by putting people first.
