

# In8 Wellness Center Introduces Cutting-Edge SoftWave Therapy for Pain Relief and Healing

*In8 Wellness Center Introduces Cutting-Edge SoftWave Therapy for Pain Relief and Healing*

NORTH ANDOVER, MA, UNITED STATES, January 20, 2025 /EINPresswire.com/ -- In8 Wellness Center, located in North Andover, MA, is bringing a groundbreaking approach to holistic health with the introduction of [SoftWave Therapy](#). This non-invasive treatment is designed to address chronic pain and promote natural healing by stimulating the body's regenerative processes, offering a new option for those struggling with pain or mobility issues.

Softwave Therapy

## A New Approach to Health and Wellness

“

Give us 8 weeks to help you change your life.”

*Dr. Ryan Hewitt*

At In8 Wellness Center, the focus is on delivering long-term health solutions without the use of drugs, surgery, or injections. The center combines advanced diagnostic tools with cutting-edge technologies to offer a comprehensive treatment plan that includes corrective chiropractic care,

movement therapy, and tissue regenerative services. The center's holistic approach aims to target the root causes of pain and dysfunction, rather than just providing temporary relief.

“We're committed to helping our patients improve their quality of life by addressing the underlying causes of their health challenges,” says Dr. Ryan Hewitt, owner and lead [chiropractor](#) at In8 Wellness Center. “Our goal is not only to reduce pain but to empower patients to live healthier, more active lives with long-term results.”

SoftWave Therapy: A Revolutionary Treatment for Chronic Pain

One of the standout treatments at In8 Wellness Center is SoftWave Therapy, a non-invasive procedure that uses supra-sonic sound waves to promote the body's natural healing process. This therapy works by stimulating the targeted area, prompting the body to send stem cells and healing agents to the site of pain, inflammation, or injury.

Dr. Hewitt, who has firsthand experience with the therapy's effectiveness, brought SoftWave Therapy to the center after it helped him recover from knee arthritis. "After years of trying various treatments, SoftWave Therapy allowed me to return to competitive sports," he says. "Now, we're seeing incredible results in treating knee pain, low back pain, shoulder issues, and more."

#### Introductory Offer for Local Community

To introduce SoftWave Therapy to the community, In8 Wellness Center is offering a limited-time introductory package for \$75 (a \$400 value). The package includes a full physical assessment, x-rays if necessary, and a SoftWave discovery session.

#### About In8 Wellness Center

In8 Wellness Center is a leading provider of holistic health services in North Andover, offering a wide range of treatments designed to promote long-term wellness and recovery.
