“

There must be God that involved in it. For the reincarnation of human beings, some people believe it and some people doubt it.”

*Excerpt from the book*

The protagonist of the story lives as a noble lady in China before 1949, then becomes a hard-working farmer in the People's Republic and ends up as a teacher and writer in today's America. This journey gives readers a lot to think about how the past, present, and future lives connect.

The narrative is full of profound questions about fate, free will, and the lessons learned from each life as recognizable entities appear in different forms.

This gripping narrative was displayed during the Frankfurt

International Book Fair in Frankfurt, Germany, from October 16 to 20, 2024. Also known as the Frankfurter Buchmesse, the event is the largest book fair in the world.

"My Three Human Lives" by Yank Shi was commended by Carolyn Davis of the US Review of Books, to wit, "This work is well worth reading as it integrates literature, history, sociology, and much more about recent history and the present. Most important is the relating of some profound mysteries that have influenced not only the author's existence but, potentially, all lives. Fans of novels about reincarnation will likely find this book of interest."

Subhrajit Saha of the Hollywood Book Reviews also gave praise to this narrative, stating that, "In addition to jaw dropping plot, the backdrop, emotional quotient, and a few dilemmas made the novel even more engaging. The narration of a spine-chilling description of extremism and making the nation hell for people not interested in some particular ideology, and people eating meat from the dead inmates to satisfy their hunger during the feminine made the backdrop of the novel more authentic."
