

# CB Tech Expands Capabilities with Acquisition of Reliable Circuits, Inc.

*Industry Leader in Water Filtration Strengthens Supply Chain while Driving Innovation*

LAS VEGAS, NV, UNITED STATES, April 16, 2025 /EINPresswire.com/ -- [CB Tech](#), a world leading water filter manufacturer specializing in the development and production of compressed carbon block filters, announces an expansion of its capabilities with the acquisition of [Reliable Circuits](#), Inc., a company renowned for its high-quality printed circuit board (PCB) manufacturing and assembly services. The acquisition reinforces CB Tech's commitment to innovation, business growth, and delivering high-quality products worldwide

A longtime vendor of CB Tech, Reliable Circuits specializes in advanced circuit board design, production and assembly, with a distinguished client base that also includes the traffic industry, developmental electronics, and aviation equipment.

CB Tech's acquisition of Reliable Circuits brings significant benefits to its water filtration business. As the exclusive manufacturer of [Multipure](#) International's products, CB Tech

ensures continued innovation and quality in their drinking water systems, particularly in advanced models with electronic controls for monitoring and adjusting filtration processes. The acquisition also enhances CB Tech's capabilities to meet growing demand while strengthening its supply chain's efficiency and reliability.

"This partnership shows our commitment to providing top-notch water filtration solutions and highlights our dedication to supporting our affiliates, vendors, and customers around the globe," said Zachary Rice, President of CB Tech. "With Reliable Circuits now operating from their new facility in Phoenix, we're poised to accelerate innovation and strengthen our manufacturing processes for years to come."

#### About CB Tech

Carbon Block Technology, Inc. (CB Tech) is a world leading water filter manufacturer specializing in the development and production of compressed carbon block filters. From its corporate headquarters in Las Vegas, Nevada, CB Tech manages the production and worldwide distribution of its proprietary Carbon Block filters and drinking water treatment systems. Applying technological experience gained from over 40 years of research and development, CB Tech successfully creates innovative, industry-leading solutions to new contamination problems, and

its drinking water filters are acknowledged around the world for their comprehensive and cost-effective treatment of contaminants of health concern. For more information visit <https://carbonblocktech.com/>

About Reliable Circuits, Inc.

Reliable Circuits is a leading provider of high-quality printed circuit board (PCB) solutions, specializing in Rapid-Turn and traditional PCB manufacturing. Since its founding in 2009, the company has built a strong reputation for innovation, reliability, and rapid delivery within the electronic manufacturing industry. With an expert team averaging over 15 years of experience in electronic assembly and PCB manufacturing, Reliable Circuits remains committed to exceptional quality, customer satisfaction, and cutting-edge solutions tailored to meet the diverse needs of its clients.
