

# GHD Services Inc. secures GSA Multiple Award Schedule in the US, streamlining procurement for public sector

*New contract eliminates procurement barriers, enabling faster access to digital solutions for state and local agencies*

NIAGARA FALLS, NY, UNITED STATES, April 24, 2025 /EINPresswire.com/ --

GHD Services Inc., providing GHD

Digital's solutions, a leader in digital transformation and innovative e-procurement technology, is pleased to announce that it has been awarded a US General Services Administration (GSA) Multiple Award Schedule (MAS) contract #47QTCA25D006J. This designation allows state, local and other public agencies across the United States to procure GHD Services Inc.'s solutions more

efficiently, eliminating the complexities of traditional procurement while ensuring cost-effective access to industry-leading digital services. It also means that public sector agencies can now quickly and confidently procure GHD Digital's [Govstack](#) Website CMS, a solution that is transforming how governments engage with residents and streamline their operations.

“

Securing a GSA Schedule is more than just a contract—it's a gateway for government agencies to access future-ready digital solutions with speed and efficiency.”

*Ali Carden, Global Practice Director*

Unlocking a faster, more cost-effective procurement process

State and local governments face constant pressure to

provide high-quality services while managing tight budgets and limited resources. Traditionally, procurement has been a time-consuming and resource-intensive process, requiring agencies to develop and manage complex Requests for Proposals (RFPs).

With this GSA Schedule in place, agencies can now transform how they connect with their communities—delivering services online, showcasing a brand that draws in tourists and businesses, saving staff and residents valuable time, and giving citizens the freedom to choose how they engage, whether in person or online.

With GSA's pre-negotiated contracts, municipalities and state agencies benefit from:

- A streamlined, cost-effective procurement process that eliminates the burden of lengthy RFPs.
- Pre-vetted vendors and competitive, transparent pricing, ensuring fair market rates.
- Reduced administrative workload, as vendors are rigorously vetted for compliance and reliability.
- Predictable pricing structures, allowing for better budgeting and financial planning.
- Cooperative purchasing options, enabling multiple agencies to pool resources and maximize savings.

A commitment to innovation and public sector efficiency

"Securing a GSA Schedule is more than just a contract—it's a gateway for government agencies to access future-ready digital solutions with speed and efficiency," said Alison Carden, Vice President and Global Practice Director for Products and Platforms at GHD Digital. "This achievement allows us to remove procurement barriers, enabling public agencies to implement secure, scalable and citizen-centric technology solutions that drive real impact."

For over 25 years, GHD Digital has been dedicated to helping governments modernize service delivery, enhance public trust, and build resilient digital infrastructure. Through this GSA Schedule, agencies can now leverage GHD Digital's robust suite of government technology solutions to achieve greater operational efficiency, improved cybersecurity, and stronger citizen engagement.

Who can order through the Multiple Award Schedule?

Our products are targeted at state and local governments, though more broadly the MAS is available to all federal agencies, mixed ownership government corporations, the District of Columbia, state and local governments (limited purchasing authority) and contractors authorized under FAR 51.
