WebAccountPlus and OpenKM Announce Strategic Global Partnership for SME Digitalization

New alliance delivers ESG-ready AI automation, multi-banking, and document compliance tools to SMEs across ASEAN, MENA and Latin America

PFAEFFIKON SZ, SCHWYZ, SWITZERLAND, May 5, 2025 /EINPresswire.com/ -- WebAccountPlus and OpenKM Expand Open Corporate™ Through Strategic Partnership

WebAccountPlus, based in Switzerland, a pioneer in AI-driven financial automation and business management solutions, and OpenKM Knowledge Management, based in Mallorca

WebAccountPlus and OpenKM announce strategic partnership to expand global SME digitalization and compliance infrastructure.

(Spain), a leader in enterprise Document Management Systems (DMS), today announced a strategic collaboration to expand Open Eco Liberty™ into Latin America, the Middle East, and other key global markets.

This partnership creates a mutual growth opportunity: WebAccountPlus will integrate OpenKM's DMS technology to enhance its financial automation ecosystem, while OpenKM will gain access to new high-growth markets through WebAccountPlus' expanding global network.

The first phase of the collaboration includes a joint expansion into multiple key countries, where the combined solution will be rolled out in the coming months.

Patent Pending – Several innovations within OpenCorporate™ are currently under patent protection, ensuring a secure and cutting-edge business management system.

"With OpenCorporate™ and OpenEco Liberty™, we are redefining how individuals and businesses handle financial transactions, compliance, and automation. OpenKM plays an essential role in this transformation by providing a highly secure and scalable document management layer."

– Roland Stähli, Founder, WebAccountPlus

"The financial industry is undergoing a profound transformation, driven by AI and automation. Open Corporate™ is at the forefront of this revolution, enabling a more efficient, transparent, and data-driven financial ecosystem."
– Chris Skinner, Co-Founder, WebAccountPlus

"OpenKM's mission has always been to provide businesses with seamless, secure, and intelligent document management. Our partnership with WebAccountPlus allows us to extend our reach and offer a fully integrated document and financial workflow solution to enterprises worldwide."
– Biel Soler, Founder, OpenKM Knowledge Management

"As businesses navigate the challenges of digital transformation, the need for automated, AI-driven solutions becomes more critical. Our collaboration with WebAccountPlus enables organizations to harness the power of OpenKM's DMS within a future-ready financial ecosystem."
– Gaspar Palmer, Founder, OpenKM Knowledge Management

Roland Stähli, Founder & CEO of WebAccountPlus AI Innovation Ltd., leading the global rollout of the OpenEco Liberty™ ecosystem.

What is OpenCorporate™?
Open Corporate™ is a secure and AI-powered enterprise framework that integrates:

"
This partnership with OpenKM significantly strengthens our global platform, giving SMEs and governments a secure and intelligent foundation for ESG-compliant automation and growth."
Roland Stähli, Founder & CEO, WebAccountPlus AI Innovation Ltd.

• Automated Compliance & Governance – Real-time financial and regulatory reporting.
• AI-Driven Financial Processing & Multi-Banking – Intelligent workflows for payments, audits, and approvals, seamlessly connected to financial institutions.
• Enterprise-Grade Document Management (Powered by OpenKM) – Secure, fully integrated DMS to streamline workflows and regulatory compliance.
This partnership allows OpenKM's existing customers to access advanced AI-driven financial automation, while WebAccountPlus benefits from a trusted document management solution already deployed in key markets.

Global Expansion Plan – Cambodia and Five Other Countries

As part of this collaboration, WebAccountPlus and OpenKM will jointly launch Open Corporate™ in Cambodia and five additional key countries, focusing on:

• Latin America and the Middle East, where OpenKM already has a strong customer base.

• Cambodia, an emerging market with increasing demand for AI-driven financial and document automation.

• Switzerland, Malaysia, Slovakia, Nepal, and Australia, where WebAccountPlus is expanding its financial automation infrastructure soon.

This phased expansion will allow businesses in these regions to seamlessly transition to AI-powered document and financial workflow automation.
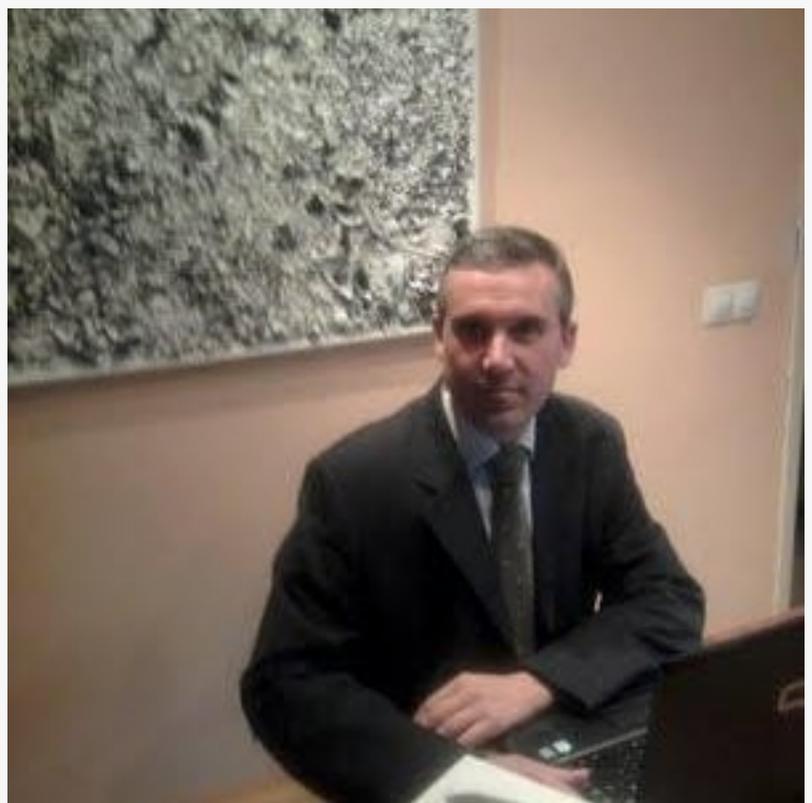

Gaspar Palmer, Founder of OpenKM, driving secure global document management innovation for enterprise and public-sector digitalization.

A Partnership Based on Innovation, Not Bureaucracy

Rather than taking a traditional financial and corporate bottleneck approach, WebAccountPlus and OpenKM have chosen a trust-based, fast-track partnership model that prioritizes:

• Rapid Market Entry – Immediate implementation in OpenKM's existing regions.

• Scalability & Expansion – Opening new global markets for OpenKM through WebAccountPlus.

• AI-Driven Compliance & Automation – Eliminating inefficiencies in banking, finance, and enterprise workflows.

About WebAccountPlus

WebAccountPlus, based in Switzerland, is the visionary force behind Open Corporate™, a next-generation AI-driven Business Management System that integrates financial automation, compliance, document management, and corporate performance monitoring into a seamless digital ecosystem.

Built with a modular and scalable architecture, Open Corporate™ enables micro, small and medium enterprises, financial institutions, and governments to:

• Automate complex financial workflows with AI-powered transaction processing and multi-banking integration.

• Ensure full regulatory compliance with real-time governance frameworks and intelligent risk analysis.

• Optimize strategic decision-making through the integrated Balanced Scorecard methodology

(powered by ESM Software LLC, Dr. Norton & Dr. Kaplan), providing real-time KPI analysis and corporate advisory insights.

• Seamlessly integrate document management (Powered by OpenKM) for AI-driven workflow automation and regulatory reporting.

Through its AI-powered automation and governance tools, WebAccountPlus is redefining how businesses, banks, and institutions manage financial operations, digital compliance, and enterprise performance.
