

Thorncrest Dental Brings Advanced Laser Dentistry to Etobicoke with Picasso Soft Tissue Laser

ETOBICOKE, ONTARIO, CANADA, June 15, 2025 /EINPresswire.com/ --

Thorncrest Dental is proud to introduce the Picasso Soft Tissue Laser, a cutting-edge addition to its suite of dental technologies, now available to patients in the Etobicoke community. This modern laser system allows for soft tissue treatments that are faster, more comfortable, and more precise—reinforcing Thorncrest Dental's commitment to providing innovative, patient-focused care.

As a trusted [Etobicoke dentist](#),

Thorncrest Dental continues to evolve by incorporating technologies that

enhance the quality of treatment and overall patient experience. The Picasso Soft Tissue Laser is an important step forward in this mission.

Soft tissue cleaning laser

What Is the Picasso Soft Tissue Laser?

The Picasso Laser is a diode laser used in a variety of soft tissue dental procedures. Unlike traditional tools like scalpels, this laser uses concentrated light energy to treat soft tissues with minimal discomfort. It replaces the need for incisions and stitches in many cases, offering a gentle, minimally invasive alternative.

This innovation helps your Etobicoke dentist deliver efficient and effective care for everything from cosmetic gum contouring to functional procedures like frenectomies.

Key Benefits of Laser Dentistry

Patients visiting Thorncrest Dental can now experience the many benefits of laser dentistry, including:

Little to No Anesthesia Needed: Many treatments are virtually pain-free.

Faster Healing Times: The laser promotes natural healing and reduces downtime.

Minimal Bleeding and Swelling: The laser cauterizes tissue instantly, leading to cleaner results.

Lower Infection Risk: Laser energy disinfects as it works, minimizing bacteria at the site.

Precision in Treatment: Healthy tissues are preserved, and results are more predictable.

Enhanced Procedures Available with the Picasso Laser

Your Etobicoke dentist at Thorncrest Dental can now perform a wide range of enhanced procedures with greater efficiency and comfort:

Gum Recontouring: Improve the shape and symmetry of your smile.

Crown Lengthening: Create room for crowns or restorations with minimal discomfort.

Frenectomies: Help with speech and tongue/lip mobility issues—ideal for children and adults.

Canker Sore and Cold Sore Relief: Speed up healing and reduce pain from oral lesions.

Biopsies and Soft Tissue Removal: Comfortable, accurate, and clean sample collection for diagnosis.

A Commitment to Modern, Comfortable Dentistry

As part of its ongoing commitment to advanced dental care in Etobicoke, Thorncrest Dental continuously invests in technology that improves outcomes and elevates the patient experience.

“Our goal is to make every visit as smooth and comfortable as possible,” says Dr. Max Dawabsheh. “The Picasso Soft Tissue Laser allows us to treat patients with greater precision and less discomfort—something our community truly deserves.”

This upgrade is part of a broader strategy to maintain Thorncrest Dental's reputation as a leading Etobicoke dental clinic, trusted by hundreds of families for compassionate, modern care.

Experience the Difference with Your Etobicoke Dentist

Thorncrest Dental welcomes new and returning patients to experience this exciting innovation. Whether you're looking for advanced soft tissue care, cosmetic improvements, or routine maintenance, you can trust the team at Thorncrest to deliver skilled, friendly, and transparent service.
