With growing demand for flexible and purpose-driven income models, the Mastermind Business System aims to close the gap between inspiration and execution. It offers a practical roadmap for those who want to leverage their experience, skills, and passions into profitable ventures, even if they have no prior business background.

## What Is the Mastermind Business System?

The Mastermind Business System 2.0 is a structured, action-oriented program tailored to support those looking to build a business rooted in personal knowledge or expertise. Developed by Robbins and Graziosi—who together have served millions through live events, coaching programs, and digital platforms—the system integrates education, support, and implementation tools.

Unlike traditional courses, MBS offers:

- A fully customized learning experience
- Live coaching and ongoing mentorship
- A proprietary AI-powered business guide (GG 2.0)
- A complete marketing and sales toolkit
- Access to exclusive events and expert-led workshops

This program is designed not only to teach concepts but also to walk participants through launching and scaling their business in real time.

### Why the Timing Matters

The digital economy continues to shift toward knowledge-based work. According to industry reports, the global e-learning and self-education market is projected to exceed \$375 billion by 2026. Additionally, more individuals are seeking freedom from traditional job structures, looking instead to earn income by teaching, coaching, or consulting.

"We designed the Mastermind Business System to be more than a course. It's a full ecosystem of support for people ready to create real transformation in their lives," said Dean Graziosi. "You don't need a fancy degree or a social media following. You need a proven roadmap and a willingness to act."

### Who Can Benefit From the Program

The Mastermind Business System is best suited for:

- Individuals who want to turn their personal knowledge into a digital product or service
- Entrepreneurs who feel stuck and need a clearer path forward
- Coaches, consultants, or creators ready to build sustainable, scalable business models
- People who value mentorship and community accountability

It is also designed for those who may not see themselves as entrepreneurs but feel called to serve others and build something of their own.

Conversely, the program may not be ideal for individuals seeking instant results without effort. MBS emphasizes personal accountability, experimentation, and long-term commitment.

### Core Elements of the Program

The Mastermind Business System is built around three core pillars:

## 1. The Right Map

Participants begin with a guided personal assessment, helping them clarify their vision, uncover strengths, and determine the type of offer or business that best suits them.

Included tools:

Business identity assessment

- The 7-Step Jumpstart (designed to help participants make real progress in just 2 hours)
- A custom learning center tailored to their specific goals

## 2. The Right Guide

Learning is supported through:

- Monthly live Zoom meetups with Dean Graziosi
- Guest sessions from industry experts and successful entrepreneurs

Access to GG 2.0, a 24/7 AI-powered assistant trained on Robbins and Graziosi's collective expertise. GG helps users get unstuck, write marketing copy, structure offers, and more.

## 3. The Right Tools

One of the standout features of MBS is its all-in-one business hub, which eliminates the need for multiple subscriptions or tech tools. Participants receive:

- Drag-and-drop funnel and website builders
- Done-for-you templates and campaigns
- Plug-and-play content generators (for email, landing pages, sales copy, and more)
- Monthly marketing plans modeled on strategies used by Robbins and Graziosi

This system allows users to quickly launch digital products, build customer journeys, and start selling online with minimal tech friction.

## Mastermind Business System Bonus Programs and Event Access

Enrollment in the Mastermind Business System also includes:

- A VIP ticket to the Mastermind World Summit, a 3-day immersive event featuring Robbins, Graziosi, and guest speakers
- Nicole Burke's Instagram Formula, an online course for growing visibility through social media
- Trent Shelton's Impact Mastery, a communication and leadership training program designed to improve digital influence

These additional resources are designed to complement the core curriculum and provide extra support in key areas like visibility, messaging, and confidence.

## Mastermind Business System 2.0 Pricing Options

To make the program more accessible, the creators offer two enrollment options:

- One-time payment of \$997 (includes immediate access and bonus material)
- Three monthly payments of \$380

Both options include full access to the program, and participants are covered by a 30-day 100% money-back guarantee.
