

# Bipper Media to Launch AI-Enhanced Citation Network

ATHENS, GA, UNITED STATES, May 22, 2025 /EINPresswire.com/ -- [Bipper Media](#) recently announced a new, exciting SEO product for existing and future clients. The Athens-based company has been working on a concept that is unlike existing traditional citation distribution platforms.

With citations fully optimized with pixel perfect JSON-LD Schema markup and dofollow links, our citation network will definitely achieve that.”

*Bipper Media CEO Bobby Holland*

Bipper Media’s citation network is an AI-enhanced search intelligence platform that structures one’s business as an entity. Under this network, clients will receive 300 dofollow directories, which offer powerful backlinks, JSON-LD Schema markup that includes location, reviews, service, hours and FAQ’s, and strong SEO ranking power.

The SEO company wanted to develop something that it currently is not seeing in the citation space that would help get businesses ranked.

“With citations fully optimized with pixel perfect JSON-LD Schema markup and dofollow links, our citation network will definitely achieve that,” said Bipper Media CEO Bobby Holland said.

To date, Bipper Media’s citations are the first AI-optimized listing network to enter the market. Pre-sale starts June 16 and the official launch will be July 1. The SEO company will be providing more updates on its social media platforms in the coming weeks. Small business owners are also encouraged to [subscribe to Bipper Media’s newsletter](#) to get the latest up to date information on deals, new launches, and seo industry advancements.
