

'Draw Me As' Launches to Instantly Turn Selfies Into AI Art – No Signup, No Subscriptions

New web app offers instant AI-generated illustrations from photos in dozens of styles — private, fast, and pay-as-you-go.

LOS ANGELES, CA, UNITED STATES, May 23, 2025 /EINPresswire.com/ -- A new web app, [Draw Me As](https://drawme.io), is now live at <https://drawme.io>, offering users instant, high-quality AI-generated portraits from their selfies. With no account required, no subscriptions, and dozens of styles — from anime and fantasy and Ghibli-inspired illustrations to beautiful watercolor paintings — users get fast, private, and fun digital art with just a few taps.

“Most AI portrait apps are bloated or upsell-heavy,” says creator Erik Aronesty. “Draw Me As works more like a vending machine. Just upload, render, download, done.”

Key Features:

- Instant rendering — see your AI art in seconds
- Dozens of styles — from comics to classic paintings
- Privacy first — photos are deleted after rendering
- Pay per use — no accounts, no spam
- One-tap sharing to social media

The app has already generated thousands of illustrations in beta, with images headlined in major news articles. Now available to everyone at <https://drawme.io>. Look for "Draw Me As" in the App Store!

Before and After Example

“

Most AI portrait apps are bloated or upsell-heavy. Draw Me As works more like a vending machine. Just upload, render, download, done.”
