Will The Pharmaceutical Pellets Market Continue To Grow  
In The Future?

The [pharmaceutical pellets market size](#) is prophesied to enjoy rapid growth, ballooning to \$3.16 billion in 2029 at a compound annual growth rate CAGR of 11.8%. The shadow of chronic diseases looms large over global health systems, and this escalating prevalence is expected to stir the growth of the pharmaceutical pellets market going forward. Defined as issues lasting a year or more and

requiring continuing medical care, chronic diseases increasingly limit everyday activities. The use of pharmaceutical pellets offers a practical solution for these predicaments, reducing digestive problems and fortifying drug absorption.
