

# accept.blue Launches New eCommerce Integrations

*Plugins for Leading Shopping Carts Help Resellers Win More Merchant Accounts*

PHOENIX, AZ, UNITED STATES, June 5, 2025 /EINPresswire.com/ --

accept.blue, the modern gateway technology platform powering next-generation payment solutions, has released new turnkey plugin support for OpenCart, WooCommerce, and Magento 2 shopping cart software's. These additions give ISOs and resellers even more tools to support online merchants with diverse and often complex processing needs.

“

These plugins are part of a continuous initiative to equip our partners with the ability to say yes more often.”

*Ben Frisch*

Designed for rapid deployment and easy integration, the new plugins allow merchants to continue operating entirely within their preferred platforms while enabling native payment processing with the MSP of their choice. With full support for features like card and ACH processing, surcharge handling, digital wallets, and 3D Secure authentication, these plugins make it easier than ever for merchants to run their business without compromise.

“These plugins are part of a continuous initiative to equip our partners with the ability to say yes more often.” said Ben Frisch, Director of Business Development at accept.blue. “Whether it’s a merchant running a simple cart or one with a layered business structure, our platform is built to adapt securely and reliably.”

The new shopping cart plugins complement a growing library of integrations across a wide range of platforms. Current plugin offerings include tools for ERPs, CRMs, and accounting systems, with supported products including NetSuite, Salesforce, Sage 100, Odoo and more. This breadth of compatibility allows ISOs and resellers to win accounts from merchants operating in a wide variety of industries and software environments.
