“

We are excited to deliver this industry-leading solution to our clients, helping them proactively monitor their environments and respond to potential threats with greater efficiency and accuracy.”

Adam Lapitino, Chief Growth Officer

Specialists (“[CCS](#)”) a leading provider of innovative technology solutions and managed services, proudly announces that it is now an authorized reseller of the [HALO Smart Sensor](#) by [Motorola Solutions](#). This partnership reflects CCS’s continued commitment to offering cutting-edge safety, security, and environmental monitoring solutions to educational institutions, healthcare facilities, municipalities, and commercial enterprises.

The HALO Smart Sensor is an award-winning, all-in-one security device that detects a wide range of environmental hazards, including vape, THC, air quality, gunshots,

aggression, and abnormal sounds. It operates in areas where traditional cameras are not permitted, such as restrooms, locker rooms, and private offices, ensuring privacy while providing real-time alerts and analytics.

“Becoming an authorized reseller of the HALO Smart Sensor enhances our safety and facilities technology portfolio,” said Adam Lapitino, Chief Growth Office, at CCS. “We are excited to deliver this industry-leading solution to our clients, helping them proactively monitor their environments and respond to potential threats with greater efficiency and accuracy.”

The integration of HALO into CCS’s comprehensive technology offerings provides clients with an added layer of situational awareness and data-driven insights. With increasing demands for secure and healthy spaces, especially in schools and public institutions, this partnership ensures that clients are equipped with tools that support compliance, early threat detection, and improved response times.

As a trusted technology advisor with over four decades of experience, CCS continues to invest in partnerships that align with its mission: delivering excellence by transforming how clients work

through the power of technology.
