increasing prevalence of dry eye conditions, heightened awareness about eye health, a spike in the number of eye surgeries, growing incidence of allergies, and escalating air pollution levels.

Moving On, What's In The Horizon For The Demulcent Eye Drops Market?

Continued strong growth for the demulcent eye drops market size is anticipated over the next few years. By 2029, it's projected to reach \$2.67 billion, with a 7.4% CAGR. Factors propelling this forecast period growth include

increasing availability of new product formulations, a growing number of people with autoimmune diseases, greater focus on preventive eye care, a rising number of ophthalmic procedures, and an increase in vision correction treatments. Taking center stage in the forecast period are advanced preservative-free formulas, the development of natural ingredient-based eye drops, multi-symptom relief formulations, integration of moisture-retention technology, and innovation in gel-based formulations.

Demulcent Eye Drops Global Market Report 2025

What's Driving The Growth Of Demulcent Eye Drops Market?

The rocketing prevalence of dry eye disease is a key driver propelling the demulcent eye drops market forward. Dry eye disease, where the eyes produce insufficient or poor-quality tears, can lead to discomfort, visual disturbances, and potential damage to the eye surface. The increasing prevalence of this condition is primarily due to the rise in screen time, reducing blink frequency and tear film stability, which in turn leads to eye dryness and irritation. Demulcent eye drops provide a solution to this rising issue, forming a protective layer on the surface of the eye to reduce irritation and moisture evaporation, and provide soothing relief to maintain eye comfort.

Who Are The Key Players In The Demulcent Eye Drops Market?

Leading the charge in the demulcent eye drops market are major companies such as Pfizer Inc., AbbVie Inc., Abbott Laboratories, Novartis AG, Sun Pharmaceutical Industries Limited, Bausch + Lomb, Cipla Ltd, Santen Pharmaceutical Co. Ltd, and Rohto Pharmaceutical Co. Ltd., among others.
