

Best Whitelabel Local SEO agency

See how Smarktek empowers marketing agencies and local businesses with scalable, expert-driven Local SEO solutions.

LOS ANGELES, CA, UNITED STATES, July 8, 2025 /EINPresswire.com/ -- In an industry crowded with SEO providers offering cookie-cutter packages and bloated promises, [Smarktek](#) is setting a new standard in [white-label Local SEO](#).

Designed specifically for marketing agencies and local businesses,

Smarktek provides expert-backed, fully managed Local SEO services that help clients rank higher, get more calls, and grow their revenue, without adding to internal workloads.

Founded by SEO expert Daniel Reparat Bort, Smarktek emerged from the need for reliable, white-label solutions that agencies can trust. Unlike traditional providers that focus on volume and automation, Smarktek combines human strategy, transparent reporting, and industry-specific optimization—all under the agency's branding.

"We saw a gap in the market: most SEO resellers don't understand Local SEO deeply or offer the kind of partnership agencies need," explains Daniel. "Smarktek was built to be the solution—focused, responsive, and driven by ROI."

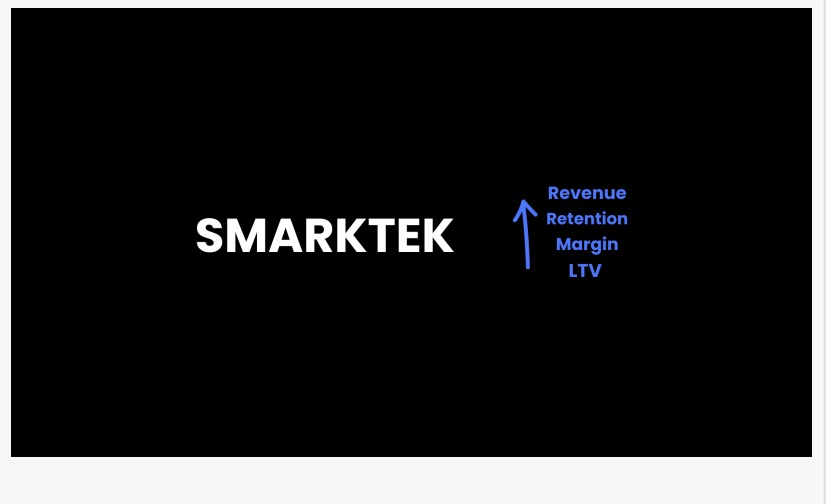

□ Why Agencies Are Choosing Smarktek:

White-Label Local SEO Done Right: From GMB optimization to review strategy, citations, and content clusters, every service is tailored to help clients rank in the local 3-pack.

Hands-On Strategic Support: Clients work directly with a strategist—not a ticketing system—ensuring clear communication and better results.

Scalable Systems: Whether you're managing 1 or 20 clients, Smarktek's processes scale with your agency.

Industry-Specific Results: Trusted by agencies representing law firms, dentists, roofers, HVAC

companies, and real estate agents.

With an emphasis on real outcomes—calls, visits, and lead growth—Smarktek helps agencies move beyond vanity metrics and deliver tangible results to their clients. Their monthly deliverables include custom reports, GMB posts, keyword tracking, review management, and strategic content recommendations to support long-term rankings.
