

Army Credentialing Assistance Program Now Available to Advance Soldier Career Development

ONLC is offering AI-powered certifications to help service members thrive in a technology-driven workforce

WILMINGTON, DE, UNITED STATES, July 10, 2025 /EINPresswire.com/ -- ONLC Training, a national leader in IT and business skills development, is proud to announce its official approval as a training provider under the Army Credentialing Assistance (CA) Program. This designation allows active-duty Army personnel to access ONLC's broad range of industry-recognized certifications—enhancing their military effectiveness and preparing them for meaningful careers beyond their service.

"We're honored to support our nation's service members as they work toward future-ready careers," said Andy Williamson, CEO and Director of AI Strategy at ONLC Training. "Our new credentialing pathway gives soldiers direct access to certifications that translate their experience into lasting civilian career value—including the skills needed to lead in today's AI-powered workplace."

Training for a Workforce Transformed by AI

Through the Army CA Program, ONLC now offers a suite of cutting-edge artificial intelligence (AI) courses designed specifically for non-technical professionals seeking to stay relevant in an evolving job market. Programs such as AI for Business Professionals and Microsoft Copilot

TRAINING

ONLC Training is a leading provider of IT and business skills training, offering a wide range of courses both online and at over 100 locations across North America.

Essentials provide foundational knowledge in workflow automation, data analysis, and AI-enhanced productivity tools—skills increasingly critical to both military operations and civilian employers.

These courses are designed to bridge the gap between traditional workplace roles and modern AI-infused processes, equipping soldiers with practical skills that enhance operational efficiency and long-term career mobility. For more course information visit onlc.com/military/army-cool

Flexible, Accessible, and Aligned to Soldier Needs

Training through ONLC is available online or at over 100 locations across North America, providing soldiers with flexible scheduling and multiple learning formats to suit their duties. All courses are led by live instructors and include interactive labs to support hands-on learning.

"We've tailored our learning experience to be both accessible and impactful," Williamson added.

“

Our new credentialing pathway gives soldiers direct access to certifications that translate their experience into lasting civilian career value”

Andy Williamson CEO and Co-Founder of ONLC Training

"Whether a soldier is pursuing promotion within the Army or planning a civilian career post-service, we ensure the training they receive directly supports their goals."

Certifications That Build Civilian Career Advantage

In addition to AI, ONLC offers Army CA-approved training paths in high-demand areas such as cybersecurity, project management, cloud computing, and Microsoft Office. Each course leads to a recognized credential listed on the Army COOL site, ensuring alignment with approved occupational

specialties and transition planning goals.

Soldiers can apply their credentialing benefits toward any approved course, and ONLC provides one-on-one support in navigating the Army IgnitED portal and course selection process.

The list of courses includes:

ONLC is proud to be an approved training provider under the Army COOL program.
