

# Fujiiryoki Announces Launch of Cyber Relax Elite, Its Most Advanced 4D Massage Chair

TORRANCE, CA, UNITED STATES, July 17, 2025 /EINPresswire.com/ -- [Fujiiryoki](#), the original inventor of the massage chair and a global leader in therapeutic innovation, proudly unveils the [Cyber Relax Elite](#) — a state-of-the-art massage chair that blends Japanese engineering, intelligent design, and full-body wellness into one luxurious experience.

## Precision Meets Comfort: A New Standard in Massage Technology

The Cyber Relax Elite is powered by Fujiiryoki's 4D Dual Massage Robot system, featuring two quad-style mechanisms with eight kneading hands that deliver lifelike, synchronized massage across the back and glutes. Its Flex Frame SL-Track ensures seamless coverage from neck to glutes, adapting to the body's natural curvature for maximum relief.

### Key features include:

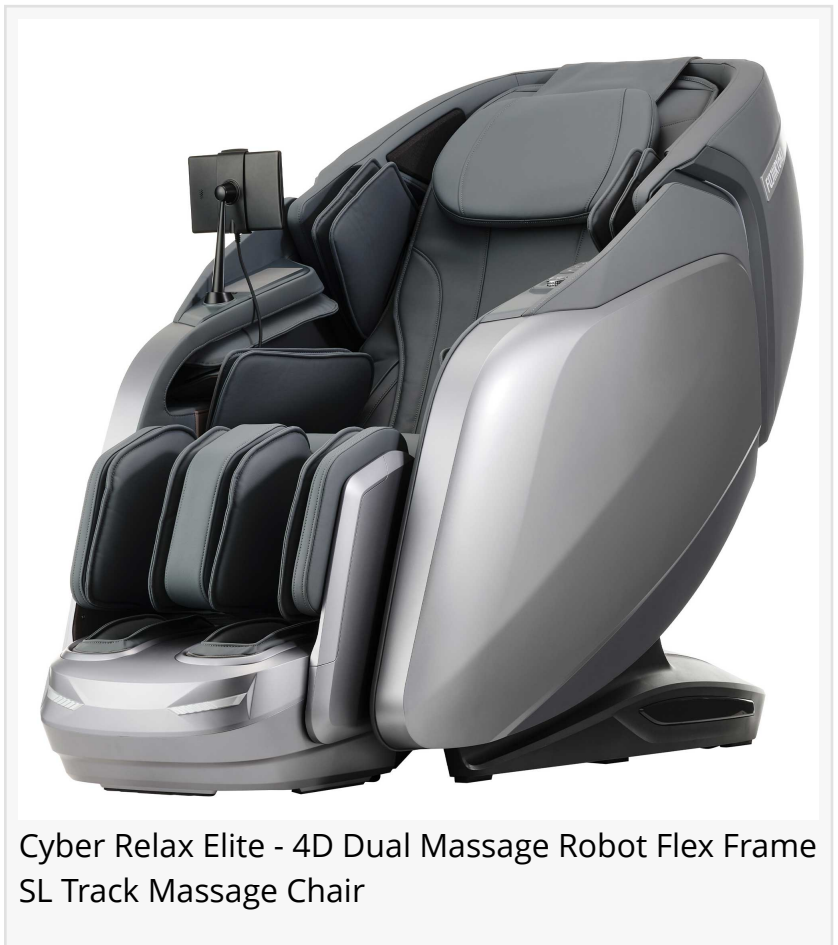

**Triple Action Leg & Foot Massage:** Combines gripping calf rollers, kneading airbags, and full-leg compression for a dynamic, spa-like experience.

**Partially Enclosed Foot Design:** Accommodates up to men's size 13 feet, with removable insoles for deeper foot massage.

**86 Airbags:** Strategically placed for full-body compression therapy.

**Quadruple Heat Zones:** Targeted warmth in the neck, arms, lumbar, and legs to enhance circulation and relaxation.

**Zero-Gravity Recline:** Reduces spinal pressure and simulates weightlessness.

Space-Saving Design: Requires only 4 inches of wall clearance for full recline.

## Smart Features for Modern Living

The Cyber Relax Elite is more than a massage chair — it's a wellness hub. It includes:

8-Inch Full-Color Touchscreen: Intuitive control of massage programs and settings.

Fingertip Control Panel: Quick access to core functions.

Bluetooth Premium Sound System with Subwoofer: Immersive audio for a calming atmosphere.

Wireless Phone Charging: Stay connected while you recharge.

LED Accent Lighting: Enhances ambiance with chromotherapy effects.

## Tailored for Every Body

With biometric fingertip sensors, automated body scanning, and a 7-inch leg extension, the Cyber Relax Elite adapts to users up to 6'4" and 300 lbs, ensuring a personalized and effective massage every time.
