a leading medical device manufacturer specializing in vascular imaging solutions, is proud to announce its acceptance as a Vizient® contracted supplier. As the nation's largest provider-driven healthcare performance improvement company, Vizient provides network-powered insights in the critical areas of clinical, operational and supply chain performance and empowers its provider clients to deliver exceptional, cost-effective care.

Vizient’s diverse client base includes academic medical centers, [pediatric facilities](#), [community hospitals](#), integrated health delivery networks and non-acute healthcare providers. This effective agreement enables

Vizient provider clients streamlined access to our [VeinViewer® Vision2](#) or Flex models with enhanced savings.

“Joining the Vizient network is a milestone for our organization,” said Lisa Kaufman, Vice President of Sales, North and South America for Christie. “We are committed to helping providers deliver more precise and patient-friendly care, and Vizient allows us to expand our reach to the hospitals and clinicians who need it most.”

VeinViewer® is a breakthrough solution harnessing near-infrared (NIR) technology to provide real-time, high-definition images of a patient's vascular structure directly on the patient. With its unparalleled accuracy and integrated [CathCompass\(TM\)](#) peripheral intravenous catheter sizing reference graphic, VeinViewer® streamlines the evaluation process, saving facilities both time and money.

Christie continues its mission to cultivate enduring connections that positively impact vascular access and empower healthcare professionals globally.
