announced that Maverick Power is ranked No. 16 overall, No. 2 in Manufacturing, and No. 1 in Texas on its annual Inc. 5000 list, the most prestigious ranking of the [fastest-growing private companies in America](#). The list offers a data-driven snapshot of the most successful companies within the economy's most dynamic segment—independent, entrepreneurial businesses. Past honorees include Microsoft, Meta, Chobani, Under Armour, Timberland, Oracle, and Patagonia.

“We are incredibly honored by the recognition of being named the #1 fastest growing company in Texas and the

#16 fastest growing company in the United States. This is a true testament to all our Mavericks who make it happen every day, delivering the highest quality critical infrastructure for our customers. At Maverick, it's not just about the growth—we like to think we are doing it the right way, where each Maverick is valued and feels like they are part of something bigger than themselves. And most exciting... this is just the beginning; we are just getting started!” said Tom Currier, CEO of Maverick Power.

This year's Inc. 5000 honorees have demonstrated exceptional growth while navigating economic uncertainty, inflationary pressure, and a fluctuating labor market. Among the top 500 companies on the list, the median three-year revenue growth rate reached 1,552 percent, and those companies have collectively added more than 48,678 jobs to the U.S. economy over the past three years.
