

# Silicon Valley Aesthetic Dermatology Announces Updated Content for Photo Facial in San Mateo and Foster City

*Silicon Valley Aesthetic Dermatology is pleased to announce updated content on photo facial treatments. Benefit from light-based technology for the skin.*

SAN MATEO, CA, UNITED STATES, August 25, 2025 /EINPresswire.com/ -- Silicon Valley Aesthetic

“

More of our clients are telling us how photo facials have made a difference in their lives. The short recovery time and long-term results have made them fans of the technology.”

*Dr. Miguel Canales*

Dermatology announces new content focused on [photo facial](#) technology. Residents of areas such as San Mateo and Foster City can find skin treatments that use [laser](#) and light technology a successful answer to skin issues. Men and women can benefit from Broadband Light, or BBL, to help clear up skin problems.

"More of our clients are telling us how photo facials have made a difference in their lives. The short recovery time and long-term results have made them fans of the technology," said Dr. Miguel Canales, Medical Director of

Silicon Valley Aesthetic Dermatology. "We are very proud to offer the service and look forward to assisting more Bay Area residents with laser- and light-based technologies to improve the skin."

People living around the Bay Area peninsula can review the Silicon Valley Aesthetic Dermatology page for photo facials at <https://svaestheticderm.com/photo-facial/>. Photo facials are a broad-spectrum treatment designed to address problems associated with sun damage. People suffering from skin problems such as age spots, fine lines, skin discoloration, and rosacea may see positive results from a photo facial treatment. The process may be described as "light therapy." The treatment provides targeted pulses of light under the layers of the skin to stimulate collagen and help improve the affected area. Healthy skin surrounding the affected area is left unharmed.

Innovative laser technology for [skin care](#) has shown to offer safe and positive results for specific issues such as acne, sun damage, scars, moles, dry skin, and unwanted hair. The non-invasive, short-recovery procedures are favorable for Bay Area residents handling busy schedules.

Silicon Valley Aesthetic Dermatology provides a full menu of skin tightening and rejuvenation

treatments, including ULTherapy, laser tattoo removal, laser skin resurfacing, Halo procedure, IPL/BBL photofacial, and laser hair removal. In addition, SVAD provides skin plumping and smoothing injectables such as Botox, Juvederm, Restylane, Radiesse, and Jeuveau. The clinic can also offer facial threadlifts. Individuals searching for details on laser technology can review the SVAD page at: <https://svaestheticderm.com/laser-skin-rejuvenation/>.

Since many social media businesses were founded in Silicon Valley, online photos may be seen as a way of life in the Bay Area. To feel ready to smile at any moment for a picture, an individual may want to fix an embarrassing skin ailment on the face. A clinic can help get residents of cities like San Mateo picture-ready with a photo facial treatment in Foster City.

#### ABOUT SILICON VALLEY AESTHETIC DERMATOLOGY

Silicon Valley Aesthetic Dermatology (<https://svaestheticderm.com/>) is a top-rated skin care clinic serving Peninsula clients in Foster City. The medical spa employs best-in-class estheticians and skin care 'doctors' (called in the vernacular) for San Mateo, Burlingame, Belmont, Redwood City, and south of San Carlos. The skin care clinic offers a range of treatments, including microdermabrasion, laser skin rejuvenation, nano skin peel, micro skin peel, and therapeutic services. Skin tightening regimes and photo facials are also available at the clinic. Bay Area residents searching for injectables can find a list of popular brands, including Botox®, Belotero, Juvederm, and Kybella. Individuals considering treatments for adult acne and other dermatological conditions can support the clinic.
