

# Royal Cyber Expands Its ServiceNow Footprint with Innovative Applications Now Available on the ServiceNow Store

*Royal Cyber launches new ServiceNow apps to optimize catalogs, automate testing, and enhance enterprise productivity.*

NAPERVILLE, IL, UNITED STATES, August 21, 2025 /EINPresswire.com/ -- [Royal Cyber](https://www.royalcyber.com) Inc., a global leader in digital transformation and a ServiceNow Build Platform Partner, today announced the availability of its suite of innovative applications on the ServiceNow Store.

Transforming ServiceNow experiences with ready-to-use enterprise solutions from Royal Cyber

These solutions are designed to streamline Catalog Management, automate testing and reduce manual troubleshooting effort, enhance productivity, and drive smarter decision-making across enterprises leveraging the ServiceNow platform.

“

This launch is about speed and simplicity — helping enterprises unlock the full potential of ServiceNow with smart, ready-to-use apps”  
*said Imran Tahir, Sr. Director,  
Digital Transformation at  
Royal Cyber*

With offerings that range from catalog optimization and compliance checks to agile development monitoring and automated testing, Royal Cyber continues to strengthen its position as a trusted innovator in the ServiceNow ecosystem.

---

Applications Available on the ServiceNow Store

- GoTestPro – Enables no-code test automation within ServiceNow, making testing faster, more accurate, and easier to manage.

- Discovery Assist – Pre-validates endpoints before Discovery runs, reducing failures and improving CMDB accuracy.
  - Catalog IQ – Provides data-driven insights into catalog usage, helping teams identify popular services and optimize underutilized ones.
  - Catalog Pulse – Captures real-time feedback from users on catalog items, transforming insights into actionable improvements.
  - Catalog Compliance Checker – Ensures catalog items meet organizational and design standards by performing automated compliance checks.
  - Agile Story Monitor – Tracks Agile development progress, monitors story completion stages, and highlights bottlenecks for improved delivery timelines.
  - WinOps Pro – Automates Windows administrative tasks such as permission setups, configuration updates, and routine maintenance directly from ServiceNow.
  - Domain Search Central – Simplifies domain availability checks and smart suggestions for IT teams managing digital assets.
- 

## Config Accelerators: ITSM, CSM and HRSD Configuration Accelerators

Beyond the Store offerings, Royal Cyber continues to innovate with exclusive, enterprise-grade accelerators:

- Integrations: SCCM Integration, Azure Integration, Azure DevOps (ADO) Integration, and API Integration Wizard.
- AI & Productivity Enhancements: AI Assist, AI Knowledge Generation, CoPilot for IRM insights, and Xtract AI for Twitter automation.
- Workflow & Catalog Optimization: Table Tracker, Table Impact Engine, FlowAnalyze, and CoPilot Catalog Navigator.
- Enhancing Operations & Employee Experience: User Exit Management, CSM AutoConfig, and Microsoft Copilot Integrations.
