

# San Angelo Medical Assistant School Opens September 2025

*San Angelo Medical Assistant School opens Sept. 2025, offering affordable hands-on training to prepare students for careers in healthcare.*

SAN ANGELO, TX, UNITED STATES, September 1, 2025 /EINPresswire.com/ -- San Angelo Medical Assistant School is proud to announce the opening of its newest location this September. Aspiring medical professionals in San Angelo, Texas now have a new opportunity to join the healthcare field through an accelerated medical assistant program that combines classroom instruction with in-person, hands-on training. Conveniently located at 3180 Executive Dr, Ste 102, San Angelo, TX, the school is designed to prepare students with the skills and confidence they need to launch their careers in medicine.

"We're focused on providing practical education that directly benefits both our students and the community's healthcare providers," said Holly Capuano, San Angelo Medical Assistant School Program Manager.

Students at San Angelo Medical Assistant School participate in hands-on labs within a local medical office and complete an externship with experienced medical professionals. This approach allows them to graduate in just a few months while receiving both clinical and administrative training.

The program offers flexible payment options so students can complete their education affordably, saving thousands of dollars compared to traditional training pathways. With this model, graduates are job-ready in a fraction of the time it takes to complete a traditional degree program.

OF WEST TEXAS

Cardiology Associates of West Texas

Training covers medical terminology, patient care, anatomy, and clinical procedures, as well as administrative responsibilities like medical billing, coding, and maintaining electronic health records. This broad skill set equips graduates to pursue a wide range of positions in healthcare offices and clinics.

"It's exciting to bring this program to San Angelo," said Chris Lofton, CEO of [Zollege](#). "Our goal is to expand opportunities for people who want to build meaningful healthcare careers while meeting the growing demand for skilled medical assistants in Texas."

Upon certification, students will be prepared to pursue employment across hospitals, clinics, and physician practices throughout the San Angelo region.
