

# Arrow Home Inspections Founder Launches Companion Guide for Buyers, Sellers, and Real Estate Agents

*"Straight to the Point" is a companion guide to home inspections that provides clarity and helps buyers make confident decisions when purchasing a home.*

BRISTOL, RI, UNITED STATES, September 3, 2025 /EINPresswire.com/ -- [Arrow Home Inspections](#) announced the release of "[Let's Get Straight to the Point: Home Inspection 101 for Buyers & Sellers](#)," a practical companion guide written by Arrow founder Doug Cavalieri. Following up on its new

online appointment system, available now at [StraightToThePointWithArrow.com](#), the company continues to expand resources for buyers, sellers, and agents. Though available publicly, the book was not written primarily for retail sales. Instead, it was designed as a companion resource to Arrow's inspections, given directly to clients and offered to real estate agents to better equip buyers and sellers with the knowledge they need to navigate one of the most important steps in a real estate transaction.

“

This book reflects Arrow's promise: every inspection and every page is designed to get straight to the point, giving clients the clarity they need to make confident choices.”

*Doug Cavalieri, founder of  
Arrow Home Inspections*

“Buying or selling a home can be stressful enough. Too often, people walk away from an inspection more confused than confident,” said Doug Cavalieri, founder of Arrow Home Inspections. “I wanted to create something straightforward that demystifies the process. Every client who hires Arrow gets a copy of the book so they not only receive a report, but also a plain-language resource that explains what those findings mean and why they matter.

It's about cutting through the noise and getting straight to the point.”

The book walks readers through each part of a home inspection; roofing, exterior elements,

foundation, plumbing, electrical, heating and cooling systems, and more mirroring Arrow's comprehensive 15-point inspection process. It also features a glossary of common terms, frequent issues inspectors flag, and "straight to the point" examples drawn from thousands of real inspections.

Local real estate professionals see value in the approach. "A home inspection is one of the most critical phases of any transaction, yet it's also one of the most misunderstood," said Red Hilton, a licensed real estate agent with 30 years of experience and founder of AskForRed.com. "This book makes it clear that an inspection isn't about passing or failing: it's about understanding. Having a resource like this in their hands empowers clients to ask smarter questions, make more confident decisions, and keep the process moving forward."

The companion book reinforces Arrow Home Inspections' mission of providing transparent, educational, and service-first inspections. It is now available on Amazon for anyone interested in understanding the process more deeply, but each Arrow client and their agents will continue to receive a copy as part of their inspection experience.

#### About Arrow Home Inspections

Arrow Home Inspections was founded in 2024 by award-winning inspector Doug Cavalieri to deliver thorough, honest, and straight-to-the-point evaluations for buyers, sellers, and real estate professionals. With decades of experience in construction and more than 2,000 inspections completed, Arrow provides clear communication, 24-hour reports, and actionable insights that empower clients to make confident, informed decisions.
