

Fasoo's Data-Centric Security Strategies for AI-Driven Manufacturing Spotlighted at ManuSec USA 2025

SEOUL, SOUTH KOREA, October 17, 2025 /EINPresswire.com/ --

Fasoo, the leader in data-centric security, engaged with industry leaders at ManuSec USA 2025, held October 14–15 in Chicago, Illinois.

As part of the event program, Ron Arden, EVP, CTO & COO of Fasoo, presented “Securing Manufacturing Data in the AI Era: From Governance to VDI IP Protection.”

Arden shared how manufacturers can safeguard sensitive design files and intellectual property in today's AI-driven environments. Citing a real-world case of securing data in Virtual Desktop Infrastructure (VDI) through granular access policies, dynamic watermarks, and full activity logs, he outlined how Fasoo delivers advanced data security while maintaining seamless collaboration with suppliers.

Highlights at ManuSec USA 2025:

- [Fasoo Enterprise DRM \(FED\)](#) ensures advanced CAD drawing security through persistent encryption and dynamic access controls from file creation through collaboration without disrupting PLM or CAD workflows.
- [Wrapsody eCo](#) transforms supplier collaboration by replacing uncontrolled file sharing with centralized policies. Organizations gain secure supplier access while maintaining visibility,

version control, and detailed audit trails.

- [Fasoo Data Radar \(FDR\)](#) empowers manufacturers with real-time insight into unstructured data, helping them locate sensitive information, track its usage, and reduce compliance and exposure risks.

"With manufacturing sectors like automotive, electronics, and energy focusing on strengthening their supply chain resilience, the need for continuous encryption and effective management of insider risks has become a top priority," stated Jason Sohn, Executive Managing Director at Fasoo. "In a time of rapid IT and AI transformation, organizations must implement a data-centric strategy that provides consistent protection and clear lineage information to safeguard and leverage their most critical assets."

Backed by recent recognition at the 2025 Cybersecurity Breakthrough Awards, Fasoo is expanding its impact across industries where data integrity and speed define business success. By bringing data-centric security into the core of AI-driven manufacturing, Fasoo continues to help manufacturers turn compliance and IP protection into a competitive edge.
