

TechBehemoths Awards 2025: Voting Officially Open — 4,360 IT Companies Competing

Companies from 68 countries are competing across 20 service categories, with winners to be announced in December

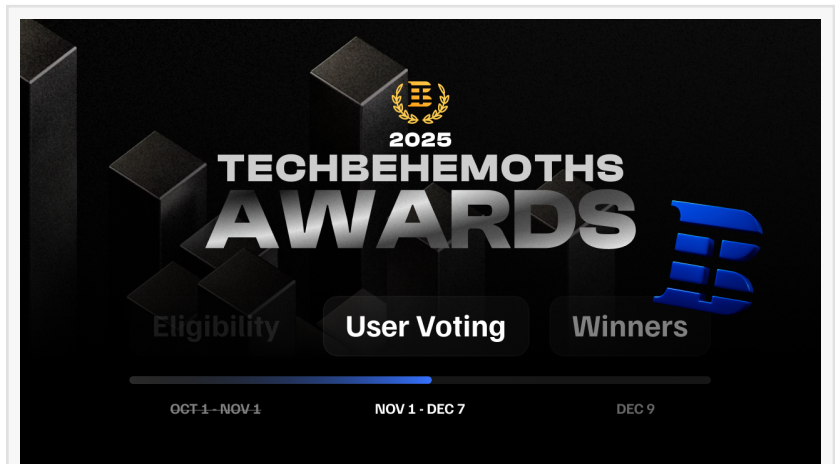

BERLIN, GERMANY, November 3, 2025 /EINPresswire.com/ -- TechBehemoths announced the official opening of the public voting phase for the [2025 TechBehemoths Awards](#), one of the largest global recognitions for IT and digital service providers.

From November 1 to December 7, 2025, IT companies worldwide are inviting clients, partners, and professional networks to cast their votes. This participatory approach allows communities to directly support companies demonstrating verified performance, innovation, and client engagement.

The 2025 edition includes 4360 IT companies from 68 countries, competing across 20 service categories, ranging from Web Development and Custom Software to Mobile App Development and Digital Marketing. Only the top 3.5% of companies are projected to receive recognition, with winners announced on December 9, 2025, followed by global PR and media exposure in Q1 2026.

TechBehemoths provides companies with the necessary [guidance](#) to maximize community engagement:

- Share the voting link on websites, email signatures, and social media

- Ask past clients, partners, and employees to support the company
- Embed the voting widget directly on the company website (available for five weeks)
- Promote campaigns authentically on LinkedIn, Facebook, and company blogs

Voting is simple and secure: select the company's country and service category, click "Vote," and confirm via email. Each person may vote once per company, with all votes verified to prevent duplicates or fraud.

To ensure integrity, TechBehemoths uses:

- Email verification for all votes
- VPN and proxy detection
- IP/device restrictions and behavioural analysis
- Advanced traffic filtering

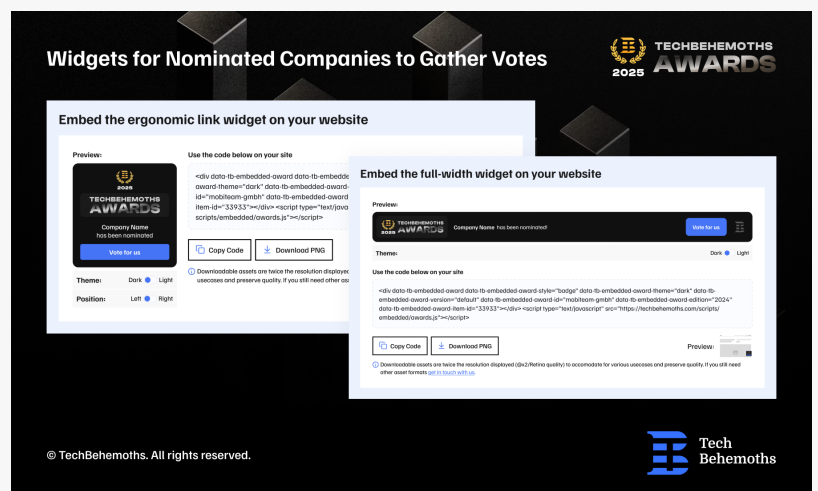

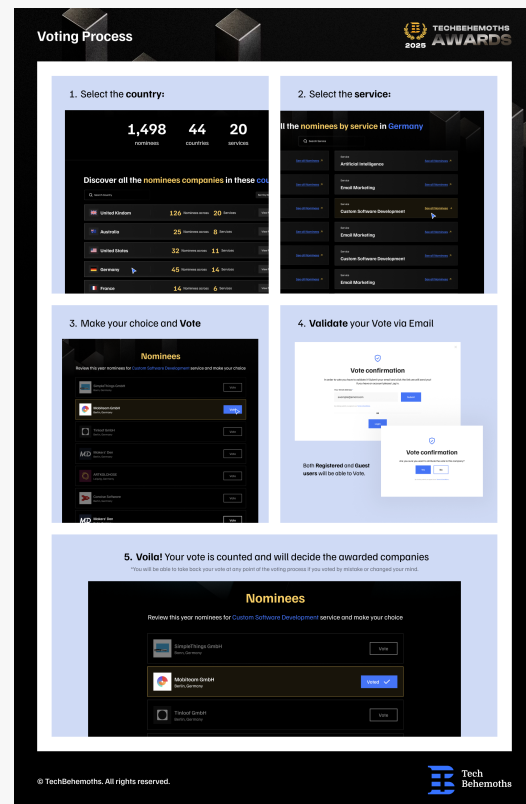

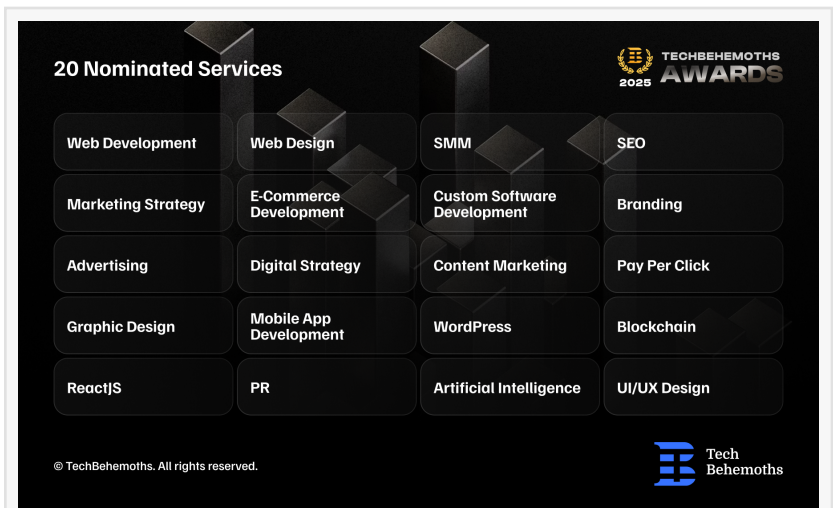

These measures prevent duplicate or fraudulent votes, maintaining trust and transparency in the Awards. In 2025, 47% of submitted reviews were rejected for verification issues, highlighting the platform's commitment to reliability.
