

ApsTron Science Launches Dedicated Website for PelvicTron™ App, as App Surpasses 25,000 Installs Worldwide

Designed for both clinicians and patients, PelvicTron™ offers an advanced, science-backed solution to evaluate, treat, and monitor pelvic floor disorders.

WOBURN, MA, UNITED STATES, November 7, 2025 /EINPresswire.com/ -- ApsTron Science, a leading innovator in health & wellness technology, announced the launch of the official website for its pelvic health app, [PelvicTron™](#), marking a major milestone as the app surpasses 25,000 global installs across mobile and desktop platforms.

Designed for both clinicians and patients, PelvicTron™ offers an advanced, science-backed solution to evaluate, treat, and monitor pelvic floor disorders. The app streamlines the clinical process with real-time assessments, interactive therapy modules, and progress tracking — all accessible from a phone, tablet, or computer.

“

With a growing global user base and a dedicated platform for clinicians, we're committed to making pelvic health assessment and treatment more accessible and effective.”

ApsTron CTO

PelvicTron™ is now supported by a full-featured website that offers product information, support materials, clinical use cases, and educational resources for pelvic health professionals. The site serves as a central hub for users to learn more about the app's capabilities and how it fits into clinical and home care workflows.

“PelvicTron™ represents a major leap forward in pelvic health,” said a spokesperson for ApsTron Science. “With a

growing global user base and a dedicated platform for clinicians, we're committed to making pelvic health assessment and treatment more accessible and effective.”

Key Features of PelvicTron™

- Pelvic floor evaluation and dysfunction analysis
- Guided treatment protocols with haptics and audio cues
- Progress visualization and report sharing
- Multi-patient support for clinicians
- Branded report generation for clinics
- Runs on iOS, [Android](#), Windows, and Mac devices
