Conference, an invitation-only gathering of the world's most discerning ultra-high-net-worth investors, family offices, and collectors, is proud to announce that Marco Antonio Soriano, Founder and Chairman of Soriano Group and Soriano Family Office, will deliver a highly anticipated keynote address on December 8, 2025, at the iconic Ritz-Carlton Laguna Niguel.

Director of OPAL*

Under the captivating title “Soriano Group: Blending Family Heritage with Alternative Investment Strategies in Technology, Mobility, and Fashion,” Mr. Soriano will share the remarkable multi-generational story of one of Latin America's most influential business dynasties and reveal how the family office is strategically deploying capital into transformative sectors including next-generation mobility, artificial intelligence, luxury fashion, and cutting-edge authentication technologies.

The centerpiece of the presentation will be a world-first live demonstration of Arius Technology's revolutionary robotic arm 3D scanner – a breakthrough system capable of authenticating artwork at a microscopic level of precision never before seen in real-time settings. Attendees will witness the scanner perform instantaneous, museum-grade analyses on priceless works, including select pieces from the collection of renowned artist and Warren Buffett granddaughter Nicole Buffett.

Mr. Soriano and the Arius Technology team will conduct live, in-suite authenticity scans directly in the presence of the audience – offering an unforgettable fusion of heritage, innovation, and trust that redefines how collectors protect and validate their most treasured assets.
