What Are The Key Driving Factors For The Growth Of The Generic Musculoskeletal Disorders Drugs Market?

The generic musculoskeletal disorders drugs market's expansion is projected to be fueled by the high occurrence of arthritis. Arthritis, characterised by joint tenderness, swelling, pain, and rigidity, can be effectively managed with generic musculoskeletal disorder medications, which help alleviate muscle pain, stiffness, and treat muscle spasms associated with the condition. As an example, Versus Arthritis, a UK charity, revealed in March 2022 that around 10 million individuals suffer from osteoarthritis in the UK, including 5.4 million with knee OA and 3.2 million with hip OA. In addition, roughly 450,000 are affected by rheumatoid arthritis and 190,000 by psoriatic arthritis. This amounts to over 20 million people dealing with musculoskeletal conditions, leading to more than 30 million prescriptions for these issues, costing approximately £139 million in 2022-2023. Consequently, the high incidence of arthritis is propelling the generic musculoskeletal disorders drugs market's growth.

Who Are The Key Players In The Generic Musculoskeletal Disorders Drugs Industry?

Major players in the Generic Musculoskeletal Disorders Drugs include:

- Pfizer Inc.
- Sanofi S.A.
- Eli Lilly and Company
- Ampio Pharmaceuticals Inc.
- Amgen Inc.
- Boehringer Ingelheim International GmbH
- Merck & Co. Inc.
- Sun Pharmaceutical Industries Ltd.
- Teva Pharmaceuticals Industries Ltd.
- AstraZeneca plc

What Are The Upcoming Trends Of Generic Musculoskeletal Disorders Drugs Market In The Globe?

Strategic alliances are an emerging trend in the generic musculoskeletal disorders drugs market, as many businesses in the sector are forming partnerships to solidify their market prominence. For instance, Mitsubishi Tanabe Pharma Corporation, a pharmaceutical firm based in Japan, entered into a partnership with the US pharmaceutical company, Eli Lilly and Company, in July 2022. This collaboration allows both companies to expand their product range and provide effective treatment for conditions like diabetes and other diseases. Additionally, in February 2022, Pfizer Inc., an American pharmaceutical and biotech company, joined forces with Alex Therapeutics, a digital therapeutics company from Sweden. This innovative strategic partnership presents patients with clinically confirmed, evidence-based, and customized digital therapeutics.
