

Invoke recognized as a Microsoft Security Excellence Awards finalist for Data Security & Compliance Trailblazer

Invoke named finalist for Microsoft Security Excellence in Data Security & Compliance Trailblazer, honoring innovation and protection.

HOUSTON, TX, UNITED STATES, December 2, 2025 /EINPresswire.com/ -- [Invoke](#) today announced it is a Data Security & Compliance Trailblazer award finalist in the Microsoft Security Excellence Awards. The company was honored among a global field of industry leaders that demonstrated success across the security landscape during the past 12 months.

“This recognition reflects the work we’re doing to help enterprise customers achieve their AI ambitions with Microsoft Copilot—securely and at scale. Being named a finalist for Microsoft’s Data Security & Compliance Trailblazer award underscores our commitment to protecting sensitive data while accelerating innovation.”

“

Being named a Microsoft Data Security & Compliance Trailblazer finalist highlights our commitment to securely enabling enterprise AI innovation with Copilot at scale.”

At the Microsoft Security Excellence Awards on January 26, 2026, Microsoft will celebrate finalists in 6 award categories honoring [partner](#) trailblazers, solution innovators, customer and technology champions, and

changemakers. This is the sixth year Microsoft is recognizing partners for their outstanding work in the security landscape. All finalists are members of the [Microsoft Intelligent Security Association \(MISA\)](#), an ecosystem of leading security vendors comprised of software

development companies and services partners that have integrated their security products and services with Microsoft's security technology.

"I'm very pleased to extend my warmest congratulations to this year's finalists for the Microsoft Security Excellence Awards. These are presented each year to recognize the outstanding achievements of our Microsoft Intelligent Security Association members as they improve customers' ability to identify and respond to security threats. Our community is made up of the most reliable and trusted security vendors worldwide. This year we received hundreds of quality submissions from partners and Microsoft stakeholders, so this year's finalists stood out in a crowd of exceptional talent. It's my pleasure to acknowledge and celebrate their work over the past year," said Maria Thomson, Director, Microsoft Intelligent Security Association.

MISA was established to bring together Microsoft leaders, software development companies and services partners to work together to defeat security threats and make the world a safer place. The industry veterans in MISA and Microsoft will vote to select the winners of the Microsoft Security Excellence Awards, providing an opportunity for colleagues to honor their peers for delivering exceptional work to our shared customers.

About Invoke

A global finalist for the Microsoft Partner of the Year award, Invoke combines tightly coupled security controls with digital productivity solutions to help enterprises innovate with confidence. As a Frontier Firm Partner, Invoke empowers organizations to adopt AI agents and Copilot

securely, strategically, and at scale—turning complexity into clarity and transformation into measurable outcomes.
